John W. Stetson Badly Shaken Up by
Pointed Question Fired at Him
by Woman

PHILADELPHIA, Aug. 16.—The chief topic of conversation in women's club circles today is the meeting held yesterday in Unity hall, under the auspices of the Berkeley Center of the California Civic League, which was addressed by the two Republican congressional candidates—Congressman Joseph R. Knowland and State Senator John W. Stetson. It is admitted on all sides that Knowland carried off the honors.

It has been claimed by some of Stetson's enthusiastic supporters that Berkeley is one section where he would receive very strong support, particularly among the women voters. The temper of yesterday's meeting did not bear this out. During Stetson's entire speech he received slight applause.

CONTINUALLY APPLAUSED.

On the other hand Knowland was continually applauded, and the points which he made concerning his record, particularly his reference to the fight made against white slavery, elicited demonstrations of approval. Congressman Knowland caught the audience at the outset by declaring that while a member of the legislature in 1901, when the suffrage cause was not so popular as it is today, that his vote was cast in favor of the constitutional amendment then pending in the assembly. The women took a very keen interest in Mr. Knowland's description of the fight for a free Panama canal; and when he told of the great victory won against the opposition of the powerful railroad interests, the women demonstrated their approval.

At the conclusion of the meeting the real fun commenced. Some of Stetson's friends had framed up questions that they imagined would be confusing to Congressman Knowland and cause him much embarrassment. One of the first questions asked was: "In case the election of President is thrown into the House of Representatives, for whom will your vote be cast?"

HAS ANSWER READY.

Congressman Knowland arose and calmly replied that he would have been disappointed if this question had not been asked for he knew that it was coming and that there was no question to which he would not very frankly and promptly give an answer.

"If the election is thrown into the House of Representatives," declared Congressman Knowland, "I will cast my vote in accordance with the majority vote cast by the people of the state of California. As far as I am concerned, I feel that it is my duty to carry out the wishes of the majority."

This frank and prompt answer again brought from the women a round of applause. In answer to the question of how he was going to vote on election day, Congressman Knowland again made prompt reply. He explained that under the conditions existing in California today there would in all probability be but two sets of electors—those upon the Republican ticket and those upon the Democratic ticket. That Senator Stetson and himself were both running on the Republican ticket and that

VAL JEAN IS
OUTDONE
IN LIFE

Philadelphia Reform Council-
man Hounded Into Sensa-
tional Confession

Was Prince of Burglars and
Crooks, but Turned New Leaf
After Serving Sentence

PHILADELPHIA, Aug. 16.—Jean Valjean in real life was disclosed here today when William Burke, elected a city councilman on the reform ticket headed by Mayor Blankenburg last fall, resigned his seat and told how, under the name of Benjamin H. Tripp he had served a long term in the Massachusetts state prison after a career of crime in New York. Coming to this city in 1907, after completing his sentence in the Massachusetts prison, Burke earned an honest living as a wood carver, at a trade he had learned while in jail. Taking an active interest in reform politics he was prevailed upon to accept the nomination to council.

Shortly after his election he was recognized by a fellow convict and blackmailed until driven to desperation, he determined to resign and tell his own story.

PRINCE OF THIEVES.

According to Burke's story appearing in the Philadelphia Inquirer today, over his signature, for years before he became a convict at Boston he had led the life of a thief, a pickpocket and a blackmailer. When he was arrested, previous to his conviction at Boston, he was called the "Prince of Flat Workers." He says he started in life as a street walt on the East Side of New York selling newspapers. He was hanging around the corners of the East Side when he began that life of a crook, which he now, at his forty-third year, has confessed to.

ROSE FROM RANKS.

"Gopher men," the species of crooks who confine themselves to cracking and robbing safes, were the first of the underworld world he fell in with. They used him, so his story runs, to visit establishments where they thought a safe might be worth riving.

Then he drifted in with a gang of "ail Buzzers," that class of thieves who, he explains, are pickpockets who make a specialty of snatching women's handbags.

After this Burke says he went west with several "veggem" and in Chicago, Kansas City and San Francisco in the eighties he was the associate of desperate thieves.

Upon returning to New York he became a gambler and then a sneak thief. Later he went to Boston, where, after robbing many houses, he was caught and convicted. Judge Bond sentenced him on December 16, 1906, to nine months, but when his release he settled in this city in the northern section, where he worked at his newly learned trade and saved enough money to buy a little cigar store. He is married and has a little girl.

Burke insists he has done nothing wrong since the gates of Charlestown prison swung open for him and he stepped into the world.

**American Woman
Missing in England**

LONDON, Aug. 16.—Mrs. L. B. Sheldon, an American artist, is reported to be missing. She went to an English lake district for a holiday and has not been heard of since August 2.

(Continued on Page 4, Col. 4.)

NAT GOODWIN IN
SERIOUS CONDITION
TODAY, IS REPORT

Actor Suffers
Injury to Spine
When Boat
Overturns

LOS ANGELES, Aug. 16.—At 9 o'clock this morning it was announced at St. Catherine's hospital that the condition of Nat C. Goodwin, the actor, who was injured at Rock Point, on the coast 12 miles south of Venice yesterday by being dashed into the rocks when his rowboat was caught in the breakers, was serious.

Paralysis of the lower limbs had developed, Dr. Oscar Anderson stated, which indicated an injury to the spine. The muscles of the left side were also affected.

Dr. Anderson would not say that Goodwin's condition at this time was likely to result fatally, but admitted that a consultation of surgeons had been called for noon today. Goodwin passed a bad night.

He told the nurses that he was in constant pain in the region of his spine and frequent hypodermic injections were given to relieve him.

ANSWERS QUERY.

One of the women arose and asked Congressman Knowland if it was possible that no opportunity would be afforded the people to vote for Taff electors and Mr. Knowland replied that under the existing conditions that such was the situation—a situation for which he was not responsible.

During all this time Senator Stetson had been enjoying the catechism which Mr. Knowland was being put through and while still smiling an inquisitive woman in the rear of the hall asked Stetson to step forward and answer a question which she desired to propound.

"How is it, Senator Stetson, that you are running upon the Republican ticket when you declare that you have left that party and joined a new organization?"

This was Knowland's turn to smile. There was a laugh in every section of the hall and Senator Stetson arose and in apparent confusion stated that he was a Republican in California because the right influences controlled the party in this state and the wrong influences controlled it nationally; that while he was running as a Republican now that after the legislature convened and a law could be enacted giving the new party a place on the ticket he would no longer be a Republican. This declaration seemed to be perplexing to the new voters present.

Many women in Berkeley today are looking up election laws in order that the complex situation in regard to presidential electors may be better understood.

**Policeman's Quizzing
Scares Him to Death**

BALTIMORE, Md., Aug. 16.—Literally scared to death, Joseph Brown, last night, dropped to the floor of his home here dead from heart trouble, when two policemen began to question him about a woman with whom he was acquainted.

"If the election is thrown into the House of Representatives," declared Congressman Knowland, "I will cast my vote in accordance with the majority vote cast by the people of the state of California. As far as I am concerned, I feel that it is my duty to carry out the wishes of the majority."

This frank and prompt answer again brought from the women a round of applause. In answer to the question of how he was going to vote on election day, Congressman Knowland again made prompt reply. He explained that under the conditions existing in California today there would in all probability be but two sets of electors—those upon the Republican ticket and those upon the Democratic ticket that Senator Stetson and himself were both running on the Republican ticket and that

Freight Carrier Believed to Be
Wreck Off Lower California
Coast

SALT LAKE CITY, Aug. 16.—Leapt from an automobile, which escaped by a hair's breadth a flying passenger train, William Groesbeck, Salt Lake, and F. M. Bradshaw, Los Angeles, were hit by the locomotive and killed at Fourteenth South and Second West streets, this morning.

Groesbeck, a pioneer mining man of Utah, and Bradshaw, a geologist of prominence, well known in the oil fields, were traveling with Alvin Edridge, W. E. Goodrich, and W. X. Clark to examine a mine.

At the crossing of the Rio Grande railroad track the attention of Edridge, the driver, was diverted by a farm wagon, and he did not see Denver and Rio Grande passenger train No. 3 bearing down on him until the engine was within a dozen yards.

Edridge sprang upon the track. Groesbeck and Bradshaw jumped. Bradshaw's body was carried a thousand feet on the pilot of the locomotive. The back of the automobile was scraped by the train, but those who remained in the car were uninjured.

**Governor Reprieves
Murderer of Two**

Ed Williams, to Have Been
Hanged Today, Given Brief
Lease on Life.

SACRAMENTO, Aug. 16.—Governor Johnson has extended the reprieve already granted to Ed Williams, convicted of murdering Mrs. Henry Mullings and Miss Inez Brooks, in Butte county, until September 27. Williams was to have been hanged today at San Quentin.

The Governor has also reprieved Frank Auwaerter, convicted of murder in Riverside county, who was also to have been hanged today. His reprieve was extended to September 14, pending an appeal to the Supreme Court.

COMMUNICATION CEASES.

Wireless communication ceased at

5:15, and at that time the Pleiades' position was in considerable doubt.

Reckoning by her course and average speed she seemed to have struck Cape Lazaro, at the entrance to Magdalena Bay, the San Francisco Merchants Exchange later received a message from the wireless operator of East San Pedro in which he reported having picked up a message from the Tanker Washita, owned by the Union Oil Company, and two days out from Port San Luis to San Jose Guatemala, as follows:

"In communication with steamer Pleiades, 9 a. m., this morning. Am 250 miles north of Magdalena Bay. Understand situation. Will proceed to Pleiades. The Washita should reach the Pleiades tomorrow."

It was also gossip of the air that the cruiser Duncan, engaged in gun practice off San Diego was hastening to the aid of the Pleiades.

SIGNAL OF DISTRESS.

OXNARD, Cal., Aug. 16.—A distress signal caught this morning by Wireless Operator Wilson of the Standard Oil Barge No. 91, which put in at Encino, was somewhat faint and was at first thought to be a call for help from the steamer Washita. It was mistaken for a call from the Pleiades.

In communication with steamer

KEY ROUTE TO GENERAL DELAY
EXPEND 15 MILLIONS
SITS WITH BOARD

City Joins in Corpora-
tion's Request for
Fill-in Permit

School Trustees Meet,
Talk, Yawn and
Adjourn

Comprehensive changes in the plans for the improvements to be made by the San Francisco-Oakland Terminal railroad, consolidated, in the Key Route further, were made known to the city officials this morning when the Key Route corporation filed a communication with Mayor Frank K. Mott asking that the city of Oakland give its endorsement to a request of the National War Department for permission to extend the solid rock fill more than a mile farther into the bay than is allowed under the present federal permit.

The new plans, which will entail, according to Vice-President Allenger, an amount of money which would meet all the existing needs with the present appropriation and fund when more funds become available.

Donovan concluded his action on the ground that Donovan's plans called for the eventual expenditure of \$24,000, whereas the bond issue provided only \$15,000 for that particular item. Donovan was instructed to draw new plans and specifications for additions to the Bay school, which were adopted the night presented. Last night the board rejected his action on the ground that Donovan's plans called for the eventual expenditure of \$24,000, whereas the bond issue provided only \$15,000 for that particular item. Donovan was instructed to draw new plans and specifications for additions to the Bay school, which were adopted the night presented.

It was about three weeks ago that Architect J. J. Donovan presented the completed plans and specifications for additions to the Bay school, which were adopted the night presented. WATER SCARCE IN SOLDIERS' CAMP

RED ARMY TAKES SAN JUAN HAS SKIRMISH WITH BLUES

CAPTAIN R. J. FANEUF (UPPER) AND LIEUTENANT C. T. HOGAN
OF BATTERY B, NATIONAL GUARD, OF OAKLAND.

Photo by Wm. H. Johnson

ARMY OF BLUES, DEFENDING S. F., STARTS SOUTH

SAN FRANCISCO, Aug. 16.—The Red army of invaders, marching on the defenses of San Francisco, occupied San Juan early this morning after a sharp skirmish with the retreating column of "Blues" in command of Colonel Bowen, who is falling back on the main defensive force under Colonel Cornelius Donavan.

"Red" cavalry scouts are pressing the retreat in full force, but the pursuit is hot, dusty work. For three days the men have not had water enough to wash

and they suffered keenly from thirst in the broiling sun.

After throwing out a detachment to guard the city water supply, the main guard of the "Blues" broke camp early this morning at Millbrae and pushed southward. The advance guard should

be in touch tonight with Colonel Bowen's

column, which will probably camp at Gilroy.

The two armies will not definitely contest the right of way until Sunday, or more probably Monday, and the first general engagement is likely to be fought in the neighborhood of Morgan Hill.

Oakland Battery Solves Problem

COYOTE, Cal., Aug. 16.—Battery B, Field Artillery, N. G. C., of Oakland, distinguished itself yesterday by frustrating a supposed enemy in the hills, about six miles from here.

The battery, commanded by Captain R. J. Fanouf, left camp in the morning, accompanied by Captain E. H. Yule of the regular army, who acted in the capacity of observer. An imaginary enemy, composed of a force of artillery, cavalry and infantry, was sighted early in the day, and the Oakland boys spent hours in repelling it. Captain Yule proposed different problems, which the militiamen promptly solved. A serious accident was avoided later, when by prompt action two horses, which had fallen over an embankment, were saved from injury.

Battery B, which is encamped here with Battery A, N. G. C., and the First Utah Battery, demonstrated its efficiency in

the war game, Tuesday, by a long march through the foothills near here. Practically every detail liable to confront artillery in war was experimented upon, including going into action in difficult sites, grading and leveling trails for passage, and finally by returning to camp via a rough mountainous route. On the return to camp, Captain E. H. Yule of the Second U. S. Field Artillery, the Federal Inspector with Battery B, complimented the men very highly, pronouncing their maneuvers as excellent.

Shortly after dinner, the Oakland men extinguished a dangerous brush fire which was raging near camp.

Battery B is rapidly showing its worth as an artillery organization, and appears to be outstripping her sister batteries somewhat. Every man is being instructed in both the duties of gunnery and driver. In the latter line much valuable work has been accomplished, breaking several untrained and fractious horses, this work being carried on under the supervision of Veterinarian J. A. Hill and Stable Sergeant I. Berney.

Aside from their military duties, the men are enjoying themselves by athletic exercises and other stunts. Wednesday evening, a vaudeville show was held under the auspices of the Utah battery.

This consisted of instrumental and vocal renditions, monologue and posing bouts.

As there is considerable talent in camp, both amateur and professional, all who attended thoroughly enjoyed themselves.

All the men are in excellent physical condition, due to the fine quality of the cooking and the excellent sanitary arrangements. All are looking forward to Friday, when the actual mimic warfare will begin and the camp broken.

Battery B consists of some ninety odd men, commanded by the following officers and non-commissioned officers: Captain R. J. Fanouf; Lieutenants C. J. Hogan, H. L. Huber, E. E. Vicary, and C. D. Kent; First Sergeants J. W. White, Sergeants F. Lovell, L. Berney, W. Turner, S. Dunn, F. Hill, W. Moore, D. Glass and H. Ender; Firemen C. Robert, F. Ryan, P. M. Emerson, C. Alexander, H. Mallison, R. Neiderman, M. R. Emerson, G. Patterson and A. Giborne. Brigadier-General Schuyler arrived at Coyote and visited the artillery camp, accompanied by Adjutant-General C. A. Forbes, N. G. C., and were conducted through the camp by the Camp Commander, Captain E. H. Yule, Second Field Artillery.

The field batteries have been organized into a camp of construction and have been undergoing a progressive course before taking part in the grand maneuvers, when the opposing batteries get close enough to use their artillery.

The following recommendations of the high school committee were adopted:

The high school principals, heads of departments and superintendents, have suggested certain minor changes in the course of study in the high schools, and have recommended a copy of an amended course for print.

Your high school committee would recommend that the minor amendments be adopted, and that the course submitted for each school be adopted, and that steps be taken to have the same advertised for printing.

On the recommendation of Mr. Rosdorff, principal of the Fremont High school, concurred in by the city superintendent of schools and his assistants, we recommend that after this term French be omitted from the curriculum of said school, save and except for those pupils who have already elected to take French, who may be permitted to complete their course; and that beginners' Spanish be offered at the beginning of each term in the following year.

We would recommend that the city superintendent of schools be authorized to appoint a substitute teacher to take charge of the domestic art work in the Manual Training and Commercial High school, the appointment of the substitute to terminate at the close of the first term.

We would recommend that Miss Litta S. Forde be assigned to the music work of the Oakland High school.

We would recommend further that Miss Mary E. McDermott be assigned

to the music work of the high school.

SCHOOL CONSTRUCTION WORK STILL A DREAM

Board of Education Does Little More Than
Talk at Session

(Continued From Page 1.)

over the board's vacillating attitude and complained that both time and money was being wasted.

Director Annie Brown voiced her sentiments when she declared an open session:

"There is much justice in the charge that you have not actually started one school building, nor even let the contractor for one."

Director Harry Forrest also took the stand that he was willing to sacrifice almost all of his theories of construction in order to see actual work start. Everybody agreed that the schools should be started at once, but when it came down to the point of actually starting, the only thing done was to discuss the adopted plans for the Bay school and postpone decision on the Fremont High school specifications until Monday evening at 7:30 o'clock.

This latter action was taken in order to give representatives of the Building Board Council and the material men to voice a protest against letting the work under one general contract, as advised by Architect Donavan.

MORE TALKING DUE.

So that there will be more talking Monday night, and objecting, with probably another postponement and appeal for advice to the district attorney's office.

Director Cook refused to vote on the adoption of Donavan's specifications last night on the ground that the board should be given a few days to study them.

Donovan's specifications consisted of a volume of 145 typewritten pages, representing technical details of construction that would be as intelligible to the average layman as a Chinese dictionary.

"I feel those specifications could lay here a month," said Director Forrest, "and not a member of this board would investigate them, or if anyone did they wouldn't know any more when they got through than they did when they started."

Nevertheless, Director Harry Boyle insisted that the board had already promised the laboring men and contractors not to adopt Donavan's specifications without giving them an opportunity to argue in favor of splitting up the contracts. He declared that the board must keep its word.

"Does it mean that we can't take any action without consulting these organizations?" asked Miss Brown.

"Well," replied Boyle, "we're the servants of the people."

Miss Brown shrugged her shoulders in evident despair.

Donovan contends that any other policy than of building schools under one general contract will entail endless delays and complications, and would mean that the directors would be doing nothing else but signing contracts.

MORE TROUBLE.

John McEvry, president of the Thirteenth Avenue Improvement Club, headed a committee which appeared to propose to the use of the Sweet school as an intermediate school, commencing next Monday. McEvry scored the directors for failing to provide accommodations for the smaller pupils before closing the Sweet school to them. He declared that under the plan as proposed by the board, children of the first and second grades who would, under former conditions, attend the Sweet school, would now have to go, in many cases, twenty blocks to the Franklin school, or what he termed "Shacks," at the Sweet Annex. He prophesied trouble if children were turned away from the Sweet school next Monday without convenient accommodations having been arranged within a reasonable walking distance.

The board finally saw the wisdom of McEvry's complaint and agreed to use the old Home Telephone building at Twelfth avenue and East Eighteenth street as temporary class rooms for the smaller children who lived in the vicinity.

The committee declared itself not opposed to the intermediate system, but against its inauguration without proper accommodations for the pupils who were compelled to leave the Sweet school.

TEXT BOOKS GO OVER.

The wrangle over the question of adopting the Gallagher-Marsch textbook was put over another week in order to await a decision from the district attorney. This means that the schools will be open and work will have commenced before the text book question is fully settled.

The following recommendations of the high school committee were adopted:

The high school principals, heads of departments and superintendents, have suggested certain minor changes in the course of study in the high schools, and have recommended a copy of an amended course for print.

Your high school committee would recommend that the minor amendments be adopted, and that the course submitted for each school be adopted, and that steps be taken to have the same advertised for printing.

**Palefaces Adopted
By Blackfoot Tribe**

GLACIER PARK, Mont., Aug. 16.—Louis W. Bill, chairman of the board of directors of the Great Northern railroad, Harvey P. Bittner, of Spokane, and Charles Griffin of St. Paul, were adopted into the Tribe of Blackfoot Indians last night at the celebration of "The Night of the Black Tail" at St. Marie's Lake.

The ceremony, which lasted three hours, was conducted by Boss Ribs, chief medicine man of the tribe, and were followed by the Black Tail dance. The white men were given Indian names, which were entered on the enormous roll of elk skin that constitutes the directory of the tribe. Bill became "Gray Horse," Bittner was christened "Mountain Chief," and Griffin was given the name "Lame Bull."

We would recommend that the city superintendent of schools be authorized to appoint a substitute teacher to take charge of the domestic art work in the Manual Training and Commercial High school, the appointment of the substitute to terminate at the close of the first term.

We would recommend that Miss Litta S. Forde be assigned to the music work of the Oakland High school.

We would recommend further that Miss Mary E. McDermott be assigned

to the music work of the high school.

**YOUTH'S DEATH LAID
TO CIRCUS TRAMP**

VALLEJO, Aug. 16.—The coroner's jury, sitting at the inquest on the body of Eli Brattstein, the young Vallejo man who was murdered near Cordelia Saturday night, have placed the blame upon Walter Hitchcock, a tramp circus hand, who is being sought by the police. Hitchcock was seen with the murdered man a short time before the body was found and has been missing ever since. No new evidence was brought out at the inquest.

KNOWLAND'S CLEAN RECORD EARNS UNITED SUPPORT

Congressman and Supervisor J. F. Mullins Welcomed at Neighborhood Meeting

Congressman Joseph R. Knowland addressed a mass meeting of residents last night at the residence of Mrs. George Mellon, 629 Sixty-second street, following an address by John F. Mullins, chairman of the Board of Supervisors, and one by George Gilder, candidate for the Assembly from the East Oakland district.

The meeting was a neighborhood gathering, organized by Mrs. Mellon, and the hall in the basement was crowded to its capacity. Several speakers were scheduled for the evening, but only Mullins and Gilder appeared and at the last moment. Congressman Knowland was prevailed upon to make a short talk.

"I have been in the political game for a number of years," said Mr. Knowland. "I was a member of the legislature of California for seven years, and I have been in the national House of Representatives eight years, and in the last eight years of my service I have never had a contest until now. I am glad that I have this contest on my hands, for it gives me the opportunity to meet my constituents face to face and tell them personally that I have performed my duty to the best of my ability."

"Influence and position in the House and my record are part of my claims for renomination. It takes long years of service to reach an influential position in the House. The House of Representatives has a membership of 400 at the present time, but there has been an appointment made, and when it goes into effect the present membership will be increased by fifty members. The House is the greatest school of self-dependence in the world. If a member-elect enters upon the discharge of his official duties with the idea that social position or other prominence in his locality, or even wealth, will secure recognition for him, he is soon disillusioned. If he relies upon other members pushing him forward he is doomed to infer with even greater disappointments. He succeeds as does so through his own efforts solely."

RANKED BY SERVICE.

"Furthermore, with rare exceptions only advancement in Washington comes with continuous service only, and the new member must accept what is left over. Only after serving a term or more that important assignments on committees can be hoped for. There are many committees in the House, but only about four of these are considered important and most sought after. These are the committees on appropriations, ways and means, interstate and foreign commerce and rules. Congressmen are not members of the various standing committees."

President J. Pancala; vice-president J. Cianciaroli; secretary, E. Pawlaski; sergeant-at-arms, Joseph Sambarber. In the absence of the president, Virgil Caporgno presided.

W. E. Sansome, president of the Central Improvement club of Alendale, addressed the gathering. He told of the坐立知能, Knowland's sentiment in the anti-suffrage cause, and his splendid services were fully recognized. He referred especially to Knowland's work in the securing of appropriations for Oakland harbor which would result in untold benefits to the city. He told of Knowland's successful fight for Pacific coast shippers in securing free tolls for American ships through the Panama canal and removing the canal from railroad domination.

AIDED IN FAIR FIGHT.

"Another notable victory for Congressman Knowland," said Sansome, "is the securing of the world's fair for San Francisco. Knowland worked night and day for this achievement, and did not forget that he helped in a material manner to make it possible. Knowland, because of his years of continuous service at Washington, has the confidence of his fellow legislators and his requests are closely listened to. Because of this prestige he has been in a position to do these things and many others for his constituents."

Knowland is in full receipt of assurances of support from all sections of the county. His headquarters at 567 Broadway are thronged with friends and supporters who are working hard for him. The meeting was opened by an address by Supervisor John F. Mullins. Mullins quoted many instances where the taxpayers of the county had been fleeced under former administrations and where they had been enabled to save money while he had been in office.

"Let us take the voting machines as an example of the senseless waste of county money. Four years ago one hundred and fifty of these machines were purchased at a total cost of \$135,000. Two years later fifty more were acquired, bringing the total cost of these machines up to \$175,000. I won't call it senseless waste of county money, on second thought. I will term it a deliberate robbery. The machines are junk and unfit for use. They are useless and could not be sold if you could buy them back."

After describing the railroads' attitude in this matter, Mr. Knowland went on to describe the actual fight. He said:

ALONE IN COMMITTEE.

"I fought night and day for weeks, standing alone in committee. When the bill was reported out they voted me down overwhelmingly. I then presented a minority report to the House. Four others joined me and the fight was made on the floor and we were finally successful."

"While we were successful in Washington, the fight has been shifted from this city to the sixth congressional district of California and I know whereof I speak. Do you endorse my course? Or shall

we be beaten?"

BE SURE TO PUT IN YOUR Vacation Bag A BOTTLE OF DUFFY'S Pure Malt Whiskey

THE BEST FOR ALL EMERGENCIES

It is the most efficient remedy known for chills, fever, colds, rheumatism, neuralgia, sunstroke and all other summer ailments.

PHYSICIAN HURT BY NIGHT OFFICER

Dr. H. A. Turner Suffering From Injured Head Following Arrest.

PLEASANTON, Aug. 16.—Dr. H. A. Turner, a prominent physician, is suffering from a badly injured head as a result of a blow from the revolver of Night Policeman Carlo Gonzerallo.

The quarrel grew out of Turner's alleged resistance to arrest for violating the automobile toll night law. Dr. Turner is on \$500 bail, facing a charge of resisting an officer. Gonzerallo was arrested on the doctor's charge of assault with a deadly weapon and is under \$1000 bail.

GONZERALLO ARRESTED FIRST Frank Dingley, township assessor, and Joseph J. Henderson, a merchant, without trouble. His attempts to stop Turner was met with resistance and a hand to hand fight ensued.

BACK FROM CONVENTION. J. E. Henderson, who was delegate to the International convention of Rotary clubs, which convened in Duluth, Minn., has returned. D. E. Perkins and Robert Robinson, who also represented the local Rotary club at the conclave, are still in the east.

LIVERMORE WOMEN TO AID SUPERVISOR'S CANDIDACY

Campaign Club Organized in the Interest of D. J. Murphy

LIVERMORE, Aug. 16.—The women voters of Livermore held a meeting last evening for the purpose of forming a woman's political club that would take in the conduct of public affairs and find an interest in politics generally, but particularly in the interests of D. J. Murphy, most important bearing upon the future of Livermore for supervisor in the First district, but of the whole of Alameda county.

There were nearly fifty women present, all of whom showed a deep interest in the matters before them, and when an active personal interest in that election was perfected their meeting they then.

"The management of county affairs by our first object the furthering of the interests of Supervisor Murphy, not only in Livermore, but throughout the entire district.

An organization was perfected by the election of Mrs. J. O. McKown as president and Mrs. M. G. Callaghan as secretary.

The women manifested a great interest in the election, and decided that they would organize in every portion of Livermore for the purpose of inducing the women voters of this section to vote for Murphy for supervisor.

It was decided that the meeting should not be a partisan one and as there no Democratic candidate against Murphy women voters from both parties would be eligible to participate in the work of the club.

ARE ANXIOUS TO HELP.

There was no lack of interest in the new organization and the new voters showed a desire to learn what to do and showed a determination to do what seemed necessary. As all present agreed the most necessary thing was to stimulate the already large interest in the candidacy of Murphy, a number of the women made addresses to that effect.

It was decided to hold a large meeting on Monday evening next at which time Murphy will be invited to address the women upon the work of the board of supervisors and his stand upon the important questions of the day.

The meeting then adopted the following resolutions, which were ordered signed by the president and secretary and transmitted to the press:

TOTAL RENTAL FOR BUILDING \$75,000

Two Leases of Stores Are Reported by Realty Firm.

Another strong indication of the steady and assured shifting of the business district is seen in a very important leasing transaction reported by Herman Rittstein, leasing manager of the Laymance Real Estate Co.

For the leasing of the entire three-story building owned by E. R. Tutt at 411-413 Thirteenth street, between Washington and Clay streets, to H. McNutt, a local milliner, who is at present the owner of the La Shapau Millinery store at 386 Thirteenth street. The lease is for a period of ten years at a gross rental of about \$75,000.

By the terms of the lease the building will be completely remodeled into an up-to-date loft type of building with large plate glass fronts in the lofts. The store

Lineage Noted for Twins Maintains Its Reputation

GOLDEN, Colo., Aug. 16.—The birth of twin boys in the family of Professor Charles D. Test of the department of mineralogy in the State School of Mines here today, proved anomalous to an ancestral characteristic. Professor Test himself is a twin. Mrs. Test has a twin sister and Professor Test's father came into the world with a brother. Both Professor Test and Mrs. Test came from a lineage noted for twins. The couple were married a year ago.

will have an arcade front of unusual design set in verd antique and onyx marble.

Another leasing transaction also just closed by Rittstein is the lease of 144 Thirteenth street near Broadway to H. McNutt, from the United Cigar Store Company. The lease is for a term of five years at a gross rental of about \$12,000. McNutt, who is popularly known among the young business men of this city, plans to open a very elaborate exclusively men's haberdashery.

APPROVED BY CITY.

The plan was broached to the city officials and after it had been gone over in detail by the city engineers, it was decided that the city could safely endorse the request to be made upon the engineering department of the Federal War Department for the permit.

It is estimated that the extension would not affect the tide waters of the bay in any way that would prove damage to shipping, and that the War Department

harbor line of engineers might be expected to look with favor upon the project.

This rate will apply from San Francisco, Oakland, Berkeley, Alameda, San Jose and Stockton, with proportionately low rates from other points. Tickets are on sale for use on September 7, 8 and 9 and return limit has been fixed for September 25.

The "Department Headquarters Train" will run via the Southern Pacific Coast line, leaving Five and Broadway, Sunday, September 8, at 7 a. m., with other trains, also bearing department officials, will leave Third and Townsend streets, San Francisco, the same day at 7:30 a. m.

These rates and privileges are for the benefit of veterans, their families and the general public. Further details of any Southern Pacific agent.

VALUABLE TO CITY.

"The extension of the solid mole would be of incalculable value to the city in its harbor plans," declared Mayor Frank K. Mott this morning. "The semi-circular Key Route basin, flanked by the Southern Pacific and Key Route miles, will be one of the most magnificent in the world. But the extension of the Key Route mole farther westward would add greatly to the value of the harbor and would reduce the cost of maintenance by a large sum annually, as it would protect the harbor from the silt & drift from the river valleys. It is to be hoped that the War Department will grant the permit."

The plans submitted this morning show a mole of about 5000 feet in addition to the two miles given in the original permit. This mole is to be 200 feet in width, and will accommodate eight tracks, four passenger and four freight. Several hundred feet from the present slips used by the Key Route pier, the mole will begin to broaden out, fanning toward the terminus, giving accommodation for a square forty-depot terminal.

FACILITATE TRANSPORTATION.

The ferries at present enter slips perpendicular to the passenger train tracks and this occasionally causes difficulty in handling the passengers. The incoming and outgoing trains interfere with the taking on and discharge of passengers. It is planned to have the ferry slips parallel to the end of the tracks, so that the passengers can be handled with greater facility.

The tracks are to be depressed a foot or more below the level of the mole at the terminus, thus bringing the lowest step of the cars on a level with the gangways of the mole leading to the ferries.

The city has now under way the construction of two sections of slips designed to accommodate deep sea traffic in the Key Route basin, and the dredging is underway. Thousands of dollars are being expended in the improvements, and these improvements will increase in value materially if the permit asked by the city and the Key Route jointly of the federal government is granted.

CALIFORNIA, Aug. 16.—SAN FRANCISCO, Aug. 16.—George Conn, a retired capitalist of 1039 Pierce street, was run down by an automobile as he was passing down Van Ness avenue near McAllister street at 11:30 this morning. The machine was driven by Louis Dernier of the Hippodrome company, living at 2861 Sacramento, Conn. was taken to the Central Emergency hospital suffering from bruises of the body and lacerations of the scalp.

EIGHT-TRACK FILL FOR KEY ROUTE

Corporation Plans an Immense Development of Harbor Facilities.

(Continued From Page 1.)

eventual expenditure of \$15,000,000 by the Key Route in the great wharf and dock project, will mean a great advantage to the city, and will be of immense assistance in the making of a splendid harbor in the Key Route basin. The change is so obviously to the advantage of the city that the council this morning passed a resolution asking the United States War Department permission to extend the solid fill in conformity with the revised plans.

EIGHT-TRACK SYSTEM.

The extension of the solid fill would make possible the placing of an eight-track system for the full length of the mole, and the placing of slips at the ends of the tracks instead of beside the train tracks. The fill will be 200 feet wide.

The great advantage of the city will be the protection of the basin from the influx of silt from the currents from the Sacramento and San Joaquin rivers. The basin is now being dredged at great expense, but already the silt is beginning to encroach upon the dredged out portion of the basin. It is declared by Commissioner of Public Works Harry Anderson that without the protection that would be afforded by the mile-extension of the mole it would be necessary to dredge the completed Key Route basin every two or three months, while with the protection given by the rock wall and fill dredging would be necessary at intervals of about two years.

When the plans for the development of the Key Route basin were drawn several years ago, it was proposed to make a solid fill for the Key Route mole for a distance of about two miles from the shore line. The city joined with the transportation corporation in asking the Federal government for permission to put the bulkhead line out 2000 feet at this point, that the harbor might be protected by the extension of the mole. This permission was granted and the Key Route has now the right to fill a distance of about two miles from the shore line. About one mile of this fill has already been put in.

It has been found that this will not be enough to protect harbor adequately, and would not permit the comprehensive improvements in the traction service planned by the transportation. After the situation had been carefully studied by engineers it was proposed that about 5000 feet extension of the mole to the present terminus of the trestle pier would give added protection to the city harbor in the Key Route basin, would add to the safety of the traveling public and would make possible the carrying out the great dock and harbor plans of the San Francisco-Oakland Terminal Railways.

APPROVED BY CITY.

The plan was broached to the city officials and after it had been gone over in detail by the city engineers, it was decided that the city could safely endorse the request to be made upon the engineering department of the Federal War Department for the permit.

It is estimated that the extension would not affect the tide waters of the bay in any way that would prove damage to shipping, and that the War Department

harbor line of engineers might be expected to look with favor upon the project.

This rate will apply from San Francisco, Oakland, Berkeley, Alameda, San Jose and Stockton, with proportionately low rates from other points. Tickets are on sale for use on September 7, 8 and 9 and return limit has been fixed for September 25.

GERMAN SUBJECT DENIED PAPERS

Washington Law Student May
Not Become Citizen of
United States.

SEATTLE, Wash., Aug. 16.—Although Albert H. Young, a law student at the University of Washington, is a subject of the German Emperor, he cannot become a citizen of the United States, because his mother was a Japanese. Such was the decision of United States District Judge W. E. Cushman who took the same view of the case as Judge Connelius T. Hartman, who recently decided and who had denied Young's application for citizenship.

Young's father was a German, who married a Japanese woman at Yokohama. Their child was born in that city, but on land under the protection of the German flag, making him a German. Young contended that as a German he was entitled to naturalization in the United States, but Naturalization Examiner John Speed Smith resisted his application under section 2169 of the Revised Statutes, which provides that only aliens who are free white persons or who are citizens by descent may be naturalized.

Young maintained that he was entitled to be classed as "free white," but the court ruled that his mother having been a Japanese barred him from citizenship. Young has been a resident of this State since 1905.

PASSENGERS SEE NEW ISLAND BORN

Volcano Throws Cone Out of
Ocean Three Miles From
Vessel.

SAN FRANCISCO, Aug. 16.—"170-30
W., 15-60 S." These are mystic numbers that mean little to the ordinary landlubber. But they mean very much to the man who goes down to the sea ship and therefrom them mean much to the passenger on the big steamer that leaves San Francisco and goes to Sydney, Australia.

These numbers represent the latitude and longitude of a new volcano, a new island and a new terror to the officer on deck.

Locality is always wonderful, but it was treacherous work to the passengers who had the Ocean liner Selandia pass out of Pago Pago, who saw the birth of this island volcano as the vessel plowed her way south toward Sydney. The old dog was making more than a chance. The passengers were thinking about going in to dress for dinner, when suddenly there burst above the horizon a wonderful glow.

The passengers looked and saw a wide-spread glow over the horizon. It was indefinite as to location, but there was the glow, and they asked the captain about it.

Trask went into the chart room and looked for some mark in that location. He found none.

As the vessel pounded her willing way through the southern seas the glow continued, and a great column of dark rock threw itself into vision, and above it was a circle of fire that spread like Ixion's wheel and dropped fire into the ocean.

Trask went into the chart room and looked for some mark in that location. He found none.

As the vessel pounded her willing way through the southern seas the glow continued, and a great column of dark rock threw itself into vision, and above it was a circle of fire that spread like Ixion's wheel and dropped fire into the ocean.

Until the sun came up over the horizon the passengers looked and watched for the birth of one of nature's wonders.

From the cone of rugged rock split from a combination mouth of fire and water-made steam the blaze spread over.

To the passengers it was something to remember and to tell about for years.

To captain Trask and his officers it was something to make note of and to tell about later — to the authorities.

ARTIST ABBEY'S ESTATE
SHRINKS TO \$146,000

NEW YORK, Aug. 16.—When Edwin Abbey, the American artist, died in London August 1, 1911, he left a will by which he directed in case of the death of his wife before him that the bulk of his estate was to be used to establish a fund for the purchase of paintings, and that the remainder was to go to his widow. It was believed his estate would amount to nearly \$1,000,000. The transfer tax appraisal of his estate, filed yesterday, shows his entire estate goes to the widow, Mary Gertrude Mead Abbey, and amounts to only \$16,292. The net estate upon which the tax is imposed is \$134,650. More than half the estate was in securities, which were in care of J. P. Morgan & Co.

BIG CRUISER MARYLAND
TAKES ON NEW LAURELS

TACOMA, Wash., Aug. 16.—The cruiser Maryland has made a new record in preparing for Secretary Knox's trip to the Far East. Saturday, while in the Sound, Alaska, 1,000 miles away, she was ordered by wireless to return. She reached Puget Sound navy yard Wednesday morning. As she dropped anchor, coal barges were placed alongside, with hoses on the bridge playing "Everybody's Doing It." Her dock force, in four divisions, has hoisted 2,000 tons of coal aboard at noon today. The ship was cleaned yesterday afternoon and is now, five days after receiving notice, ready for Secretary Knox.

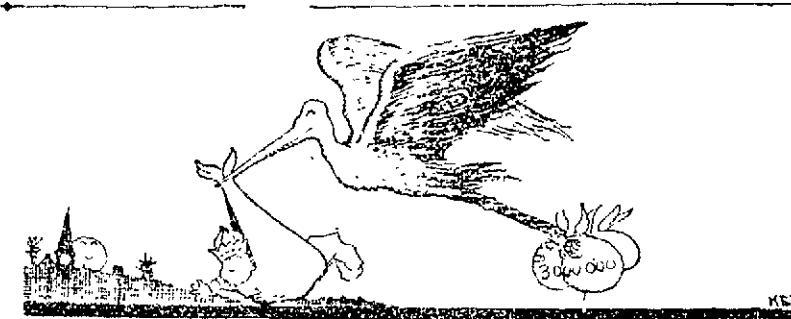

MANIAC WHIPS EIGHT MEN.
SAN JOSE, Aug. 16.—Peter Bacchino, a lunatic, fought eight deputy sheriffs for an hour yesterday in the corridor of the county jail house. He was subdued only after considerable trouble. Bacchino, who is 16 years old, was committed to the Acenews state hospital by Judge P. R. Gosby and a board of insanity commissioners.

RANNER STAR IN WALNUTS.
LOS ANGELES, Aug. 16.—English walnut crop in Southern California this year will exceed that of last year by more than 2,000 tons according to reports received by local organizations. This year's output was placed at 12,665 tons. All districts showed an increase and it was said the quality was also much improved.

INDIAN KILLED ON TRACK.
Near Rockville, Ill., an Indian went to sleep on a railroad track and was killed by another Indian. He paid for his life. Often in that way, when people neglect cousin and brother. Don't risk your life to protect the use of the King's New Testament, will cure them and so prevent a repetition of such a tragedy. In consequence, we have a simple rule: If a simple soul has a desire to eat a meal, let him do so, and if he wants to drink beer, let him do so.

10¢. That bottle from the Oregon Bros.

Plenty of Pay, but Same Old Stork in Same Old Way

(By GERALD P. BENMONT.)

Since Adam was made from nothing, and Eve was carved from his rib, the stork has brought every baby that ever had need for a bib. And whether it's born to a pauper, or whether it's purple bred, it comes to its mother naked, and its nose is pudgy and red.

It maybe the world has followed the flight of the stork to the nest, And worked with gold in each garment and stamped with a famous crest. Yet whether it's doomed to squalor or whether it's born to riches, it's sent to its future wailing with never a boast of breeches.

Its coming may bring three millions and the hope of a social crown. And years from its gleeful crowing the world may quake at its frown: But it comes to its birthright helpless; it comes like the meaneast of us, Desires all the great comination, despite all the clutter and fuss.

And babe never was born of woman, from its foot to its red little nose, That was able to do any better than wriggle its dees little toes; And no matter the baby's cradle, no matter its sire or name, By the favor of God its changes with Gotham's best are the same.

TRAINMEN FREED OF BLAME FOR ACCIDENT

HONEYMOONERS FALL TO DEATH IN ALPS

NEW YORK, Aug. 16.—Humphrey Owen Jones, T. R. S., Fellow of Clare College, Cambridge, and a distinguished scientist, and his wife, while on their honeymoon, were killed by falling from the Freytag glacier during the ascent of Aiguille de Petoret, one of the peaks of Mont Blanc. Mrs. Jones was a niece of the Bishop of St. Asaph. The couple were married August 1. Professor Jones was an experienced Alpinist, and took part in three record climbs last year. On this occasion Professor Jones and wife were accompanied by a guide named Truffer and an Austrian doctor by the name of Peiss, who escaped.

The evidence showed that the train was moving at about 15 miles per hour, and while crossing Pardoe street the motorcyclist lost control of his machine, and looking out saw the train coming in his judgment about 15 miles per hour, toward his train. At this time the train was nearly past the street. A few seconds later he heard the crash, and the conductor also hearing the crash, gave the stop signal. The train stopped within 100 feet of the northerly end of the station platform.

Shoemaker was badly injured and the conductors foot was mashed and dislocated. Shoemaker attempted to get his wife and baby off the track but did not succeed.

Home Treatment for Tuberculosis

Consumptive patients need no longer dread either the fate that formerly overtook them—dissipation from lung trouble, or early and inevitable death from other climates or to some expensive sanatorium. Hundreds are now staying quietly at home, restoring themselves to health at the cost of a few potations. Here is one who speaks from experience:

"22 S. 4th St., Colwyn (Darby), Pa.: Gentlemen: for four years I was troubled with cough, which gradually became worse. A physician told me my case was Consumption and I was ordered to a Consumption hospital. My nephew would not allow me to go until I had tried Eckman's Alternative. Before I had taken the first dose I began to feel better, and getting well I am in excellent health now and have been completely cured for ten years. I strongly recommend it." (Signed) (MRS.) MARY WASSON."

CONSUL MURDERED PHOTO TELLS TALE

Bites inflicted by assailant are shown in McMaster picture.

COLON, Panama, Aug. 16—La Epoca, a newspaper of Cartagena, prints a photograph of Mr. William R. McMaster, the United States Vice and Deputy Consul, who was killed while hunting on the outskirts of Cartagena last Sunday. The picture shows what apparently were three bites in the right arm, indicating that the Vice Consul had a scuffle with an assailant before being shot.

The text of the telegram of the Governor of Cartagena to the Foreign Minister at Bogota and a letter written by Graham H. Kempai, American Consul at Cartagena, point to the theory that McMaster was murdered.

The following account of the tragedy was told by an American who arrived here from Cartagena:

"McMaster left Cartagena last Sunday for his ranch, ten miles along the coast, where he met his wife. Subsequently he went on a hunting trip, and not returning up to a late hour in the afternoon, Mrs. McMaster became alarmed, suspecting because of the previous threats made against her husband's life, that he had met with treachery."

Word was sent to Mrs. McMaster's four brothers at Cartagena, and a search for the missing man was instituted.

POPULAR OAKLAND GIRL WEDS SAN FRANCISCAN

Miss Julia Hansen Wednesday evening became the bride of Forrest E. Wood of San Francisco, at a ceremony performed in the home of Mr. and Mrs. E. A. Wozniak, 640 Seventh avenue. More than fifty guests showered congratulations on the young couple and saw the ceremony performed by the Rev. M. N. Anderson of Our Savior Danish Lutheran church.

The house was draped in pink and green carnations and ferns being used. Mrs. Wozniak assisted her sister in the preparation of honor while O. H. Wozniak stood as best man. After an extended honeymoon, the couple will reside in San Francisco.

STRUCK DOWN IN OWN HOME BY BOLD THUG

OAKLAND, Aug. 16.—Mrs. G. J. T. Tamm, 30, of 1111 1/2 12th Street, was struck down by a bold thug who burst into her home and shot her in the head and left her dead on the floor. The intruder is reported to have been a Negro.

Flat Per Diem Charge of 45 Cents Agreed Upon for All Railroads.

CHICAGO, Aug. 16.—A flat per diem demurrage charge of 45 cents on all freight cars is to go into effect on Jan. 1, 1913, on all railroads. This is a change from the old charge of 30 cents during the dull season of railway business and 35 cents a day during the rush season.

The American Railway Association which has been obtaining ballots on the proposition, has just made public the vote.

Out of 841 roads voting, 173 roads giving 1,708,001 freight cars voted for the increase to 45 cents a day. The 162 roads which voted against the proposal were 1,100,000 freight cars.

It is believed that the railroads have abused the demurrage system to the extent of holding foreign cars and paying charges instead of building equipment of their own. It is believed by advocates of the increase that the practice will not greatly curtail.

COMMISSION REPEALS ELECTRIC FRANCHISE

SACRAMENTO, Aug. 16.—The power of the referendum in the hands of the people was demonstrated yesterday when the ordinance granting the Valley and Northern Electric Railroad franchise for a right of way on Front street from M street to R was repealed by the new city commission. The franchise had been granted by the old board of trustees despite the fact that the new commission opposed it in all its

branches to a term of thirty-five years.

The vote was taken in the face of a warning by President T. T. C. Gregory of the Valley and Northern that probably he would carry the matter to the courts on a writ of certiorari.

Word was sent to Mrs. McMaster's four brothers at Cartagena, and a search for the missing man was instituted.

RICH GOLD STRIKE IS BARED BY CLOUDBURST

DENVER, Aug. 16.—A new gold field, which is said to recall in richness the Cripple Creek district, was revealed when a cloudburst at Latir creek, four miles from Cimarron, New Mexico, washed away the earth covering a vein of ore of mar-

velous size.

It is reported to assay as high as \$2250 a ton in places and to average remarkably values throughout its length.

The discovery was made a week ago and attempts were made to keep it secret.

BOWERY HAS \$100,000 EARLY MORNING FIRE

NEW YORK, Aug. 16.—A fire which started early this morning in a two-story brick building on the Bowery, east of the corner of First and Second streets, caused a loss of \$100,000. The fire was discovered at 5:30 a.m. and was fully developed by 6:30 a.m. It was a gas fire, and the gas pipes were cut and ruptured from the pressure of the heat.

The fire was extinguished at 7:30 a.m.

The building is reported to have been

BRITISH PRINCES TO VISIT CANADA

Wales and Brother May Spend Month With the Duke of Connaught.

LONDON, Aug. 16.—It is stated un-

officially, but on good authority, that arrangements are being made for the Prince of Wales and his brother Albert to visit the Duke of Connaught in Canada during the summer vacation, along with a cousin as tutor.

The imperial princes are expected to remain in Canada for a month, during which they will see something of the country west of Western Canada and indulge probably in a big game shooting expeditio-

The two youths may return home by way of the United States staying for a few days at New York.

REDUCE ASSESSMENT ROLL \$54,219,840

SACRAMENTO, Aug. 16.—The State Board of Equalization yesterday afternoon reduced the franchise assessment roll prepared by City Assessor Mallard of Los Angeles from \$69,510,000 to \$19,290,160, making a reduction of \$50,219,840. This reduction was made by the board in equalizing the rolls on which the State is obliged to pay refund to the city of 1 cent for past bonds and interest.

HOP MEN HOLD ON; LOSE.

SANTA ROSA, Aug. 16.—At a price ranging from 16 to 18 cents a pound, George Brown, Santa Rosa, obtained 575 bushels of hops this afternoon.

By holding their hops in the belief that prices would advance again, they have lost thousands of dollars. They could have sold the same hops for 10 cents a pound or more last year.

Peevish Children Suffer With Worms

Don't be angry with your child because he or she is continually irritable. In ninety-nine out of one hundred cases you will find that the trouble is worms.

Among the common symptoms of the presence of round worms are nervousness—which often leads to epileptic fits—and constipation.

Round worms are easily removed by

means of a simple diet, consisting of

the egg and meat diet, and often

insects.

Round worms are external

to the body and infest the stomach.

Occasionally several hundred are found

in a single person. Thread worms are

smaller, often not longer than a quarter

of an inch. The symptoms denoting

their presence are about the same but

more violent.

Taenia Tapeworms are also

common in peevish worms. Not only

will they destroy their host, but also

they will cause many other diseases.

FOR YOUR HAIR

Here Are Facts We Want You to Prove at Our Risk.

Marvelous as it may seem, Rexall "93" Hair Tonic has grown hair on heads that were once bald. Our customers understand that in none of these cases were the hair roots dead nor had the scalp taken on a glazed shiny appearance.

When the roots of the hair are entirely dead and the pores of the scalp closed over, we do not believe that anything can restore their growth.

We want you to prove the facts of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair and in every way give entire satisfaction, simply come back and tell us and without question or formality we will refund to you every penny you paid us for it.

We lend our endorsement to Rexall "93" Hair Tonic and sell it on this guarantee, because we believe it is the best hair tonic ever discovered. It comes in two sizes, prices 50 cents and \$1.00. Remember, you can obtain it only at the Owl Drug Co. stores in Oakland, San Francisco, Los Angeles, Sacramento, Portland, Seattle, Spokane.

WEALTHY TOURIST VICTIM OF THUGS

Guest at St. Francis Hotel Is Assaulted by Thieves and Robbed.

SAN FRANCISCO, Aug. 16.—T. E. Bowman, a hotel man of Flagstaff, Arizona, who is making a tour of the Pacific Coast in his automobile, became lost in the him, unfamiliar streets of this city early this morning and fell into the hands of thieves. Bowman is stopping at the St. Francis Hotel and last night he started out to view the sights of the city. He toured in his machine until midnight when he put it in a garage and started off on foot. After looking over the points of interest in Chinatown and the regions adjacent thereto, he started back to the hotel. Not sure of his exact bearings he inquired the direction of a policeman. He had proceeded about four blocks further when two men volunteered to show him the way. They took him some distance away from the beaten track of travel usually used by pedestrians at that hour of the morning, and when a convenient place was found they set upon him and beat him. He was struck repeatedly over the head, knocked down and robbed of a gold watch, \$50 in cash and a number of papers showing his membership in the Masonic order.

Following the attack Bowman made his way to the Bush street station, from where he was conveyed to the Central Emergency Hospital and treated for severe wounds on the forehead. Several detectives were then sent out with him in an unsuccessful effort to locate his assailants.

Bowman is a wealthy Arizonian and is prominent among the Masons and other fraternal organizations.

PSEUDO RINGLING PLEDGES HONESTY

Chicago Merchant, Who Impersonated Circus Man, Will Be Good.

LOS ANGELES, Aug. 16.—John H. Hudson, the Chicago man and ten-cent storekeeper, who posed here and at San Diego as John Ringling, the circus manager, and who was arrested on suspicion and held by the police while they investigated the issuance of several bank checks, was released from jail last night and said he would at once leave for Chicago. When given his property at the police station, Hudson opened a check book and took out a check made in favor of the Southern Pacific Railroad for \$5,000, drawn on the Austin State Bank of Chicago. Tearing it into small bits Hudson said:

"I'm through with that name; no more for me."

INSURE BUOYANCY OF VESSELS RECOMMENDED

LONDON, Aug. 16.—Upon adoption of possible precautions to insure the buoyancy of a vessel after a casualty and efficient means of communicating with the shore or other vessels, depends the safety of passengers at sea in event of accident, is the opinion of the marine board of trade.

Its views are made public in its report as to what changes in regulations regarding life saving appliances are necessary as shown by the Titanic disaster.

The committee says that catastrophe did not occur due to difficulty in getting life boats to their full capacity even in calm weather, upon ships carrying large numbers of passengers. Recommendations for additional life boats and rafts are made. The use of buoys and buoys is declared inadvisable.

SOCIALIST LEADER TO WELCOME EMPEROR

BERNY, Switzerland, Aug. 16.—By a coincidence the first official welcome to the German emperor when he crosses the frontier on September 3 to attend the Swiss army exercises will be extended by the well-known Socialist leader, Herr Blacher, who has been charged to represent the federal president, the government and the canton of Basle.

CHARLES E. KEITH DEAD.
BRIDGEPORT, Conn., Aug. 16.—Charles E. Keith, superintendent of the Bridgeport parks and president emeritus of the National Association of Park Superintendents, is dead here aged 84 years.

The implied confidence that many people have in insurance companies, Charles E. Keith, founder of the Travelers Insurance Co., died here yesterday. Keith's funeral was private except for friends. George Samuel W. Colby, 52, a young man, is in an investigation for the government of the death.

SECRETARY WILSON IS OLDEST MAN IN THE CABINET

CLUCK-CLUCK, HENS READY FOR CONTEST

Santa Clara County Fowls Are Pruning Feathers for the Coming Show.

SAN JOSE, Aug. 16.—When entries closed last night thirty pens, of four hens and a rooster each, had been entered in the egg laying contest which will decide the championship of this county at the Santa Clara County Fair. The contest will begin with the opening of the fair on September 7th, and will close September 13th, leaving two days of the fair for the winter to flaunt the diploma award and productive pens of "more chickens" who will have been defeated.

This novel feature is expected to draw out the drawing cards of the county fair and entries have come in so fast that the management found it necessary to close them nearly three weeks in advance of the opening of the fair. The entries for the general poultry exhibit will close September 7th.

Several hundred pounds of potatoes were also entered today in the competition between children of the Santa Clara Valley schools. Most of them entered were planted months ago and have been grown especially for this competition. The winning fifty-pound lot will be rewarded with \$25 in cash and the usual ribbons.

SINKS IN MUD OF CHINA BASIN

Police Rescue Aged Woman as She Is Disappearing in the Treacherous Marsh.

JAMES WILSON.

WASHINGTON, Aug. 16.—"Tammie" Wilson, secretary of agriculture and the oldest man in President Franklin's cabinet, enjoyed his 73rd birthday. Secretary Wilson said he was looking forward to quitting public life on March 5th next so that he might go home among his grand children, "don his overalls and move around among the common people."

Wilson has exceeded by four years

the record for long service in the cabinet and under his regime the scope of the department of agriculture has been widely extended.

OAKLAND TRIBUNE EDITORIAL PAGE

M. C. CHAPMAN
President

On Hand-Made Millenniums.

"Progressivism is in the air," says the Sacramento Bee. Right you are, brother. It is in the air because it is not solid enough to stay on earth. It is invisible, inchoate, impalpable, incomprehensible. It is the nebulous creation of hot air. Dialectically considered, it is a term used to disguise ignorance, humbug and lack of definite purpose.

Of course, every enlightened citizen is in favor of progress, political, moral and industrial; but progress is not a matter of words and phrases. It is the law of evolution applied to the economics of government and the rule of conduct. It is not made up of fads, issues and conceits, and its exemplars are not men who are unable to tell what they want or what they propose to do, men who cannot think straight or talk straight, and who repeat such words as progressive and reactionary without understanding what they mean or how they apply to present conditions.

Human nature is benevolently inclined when benevolence involves no personal sacrifices and does not interfere with individual selfishness, hence it is only natural that men should desire in the abstract to see poverty, wrong and misery banished from the earth. But a promise to banish them must rest upon something more substantial than good intentions or mere lip philanthropy. Banishment of such organic evils requires action, direct and drastic action, and such action must be within the realm of human possibilities.

Because a man says he wants to establish a millennium on earth by political action is no proof that he knows how it is to be done; it does not prove him to be either honest or sensible, or that he has any plan or intention to carry out his promise. It is easy enough to say there is a pot of gold at the end of every rainbow and to promise to lead the people to it, but it is not so easy to designate the path to be followed or to prove that the pot of gold really exists.

Progress, real progress, is a safe and sure advance to higher and firmer ground. Politically speaking, it is not a departure from old principles, for principles are basic and eternal, but a better adaptation of those principles to the needs of humanity and the changing conditions of modern life—an adaptation of means to ends in a practical, effective way. Such an adaptation cannot be made by mere words and expressions; it must be made by concrete application, not by emitting hot air and standing in the market place like the Pharisees of Scripture, lauding the assumed virtues of self and bearing false witness against others.

Many years ago a religious enthusiast named Miller preached that the government of Christ on earth was at hand, when the righteous should be called to their reward and the wicked handed over to punishment. Thousands of his deluded followers sold or gave away their possessions, prepared their white robes and devoted themselves to fasting and prayer as a preparation for the coming of the Lord. But the end of the world was not at hand; the Lord did not come; there was no millennium and no Last Judgment. The white garments of righteousness were useless, save for bedclothes and shrouds, and the old order continued.

Unhappily, many of the dupes found that they could not recover the property they had sold for a song or given away to neighbors who were hard-hearted and unbelieving—the reactionaries of that day.

The Roosevelt craze is a species of Millerism. It is accompanied by the same unreasoning enthusiasm that distinguished the disciples of Miller. Its doctrines are as vague, nebulous and fanciful as the doctrines of Miller. It is equally opposed to the teachings of common sense and the lessons of human experience. It is an effort to pave the world with gold and bring heaven to earth. It is the contagion of a revival that defies every known law of human nature and the verities of human life. Its devotees are no more in earnest, no more convinced of the truth of what they believe than were the followers of Miller.

They have good intentions, but do not know what to do with them or how to apply them. All they know or think they know is that the millennium is at hand when the righteous will be rewarded and the wicked punished.

If further particulars are wanted, apply to Tom Flinn, Dill Flinn and George W. Perkins. When the craze passes, as it is sure to do, it is easy to tell who will have the useless white robes and who will have the land.

It is perfectly natural that people who prefer dogs to children should likewise prefer rabies to babies.

Meyer Lissner denies that he is inconsistent in retaining the chairmanship of the Republican State Committee while being a member of the Progressive National Committee. He is quite right—he is not inconsistent, only indecent.

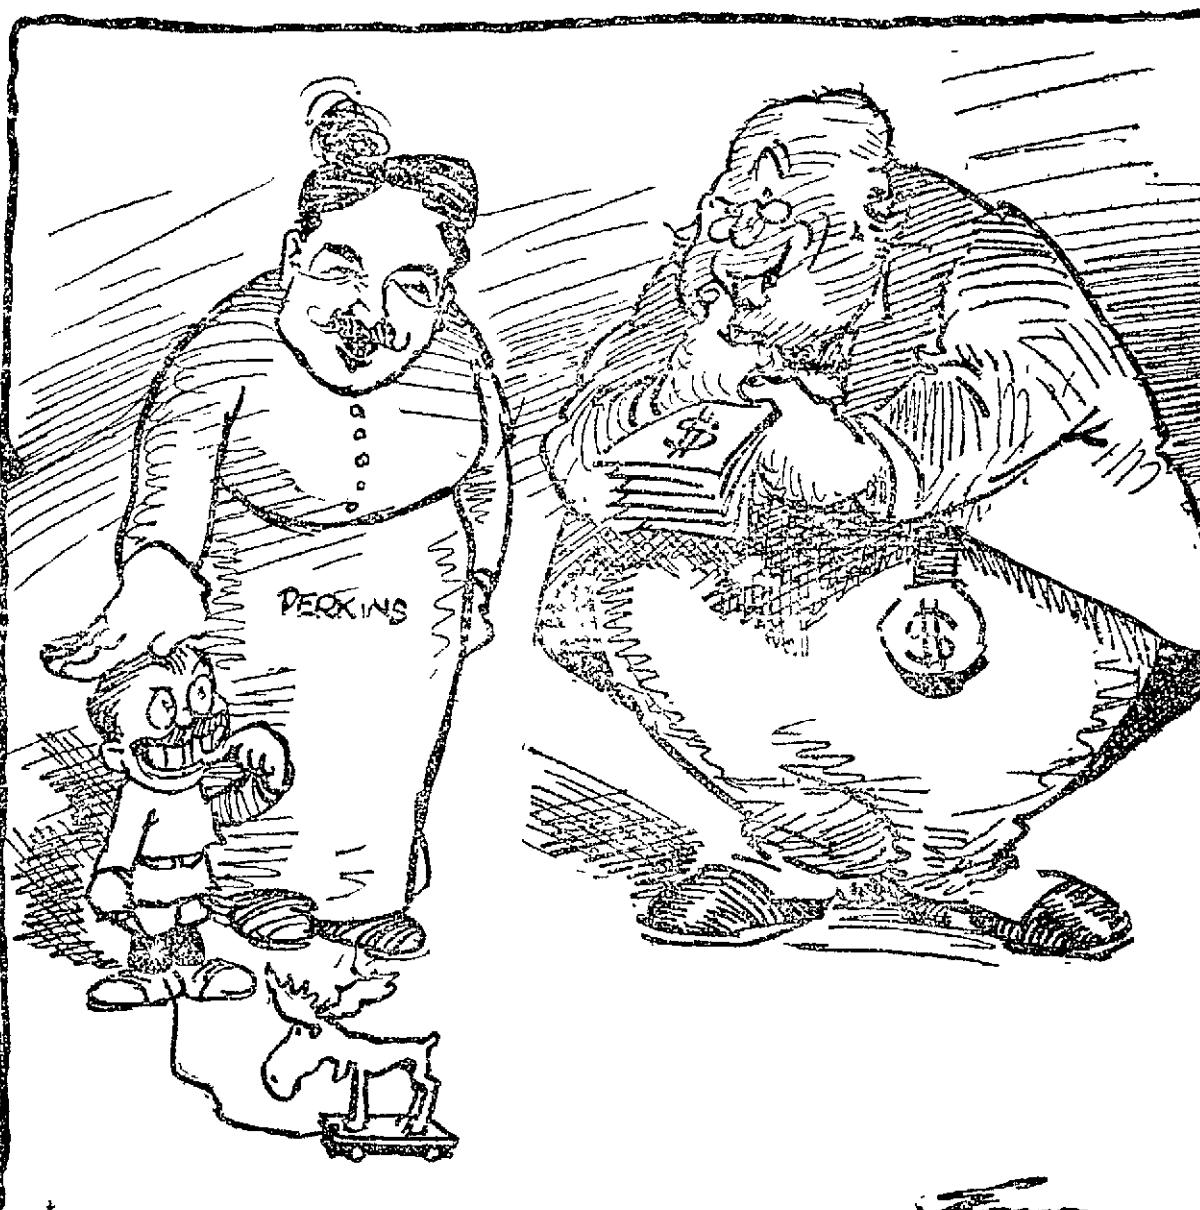

The passage of the Postal bill containing a parcels post provision is a distinct victory for President Taft. It is not in as desirable a shape as it should be, owing to the tinkering of Senator Bourne and his Progressive colleagues; nevertheless it is a good beginning. Ever since he went into office President Taft has been set on establishing a parcels post, and has urged it upon Congress with such insistence that his recommendation has finally been acted on favorably. The zone feature which Senator Bourne succeeded in grafting on the bill mars the measure, but it may be taken as quite certain that the parcels post will shortly be made to apply to the entire area of postal distribution on equal terms. What is needed is a flat rate for packages of limited size and weight for all distances, and this we would have had but for the pernicious interference of the Oregon Senator and his Progressive allies. Congressman Knowland voted for the parcels post as recommended by the President.

The objections to the third term are not removed by asserting that Taft is not a candidate. The objections are as strong as they were—stronger perhaps, by reason of the autocratic tendencies of the present third-term candidate.

It is to be hoped that the liquidation of the Continental Building and Loan Association will not be as disastrous for the stockholders as the liquidation of the California Safe Deposit and Trust Company has been for the depositors in that concern. Political interference in the affairs of financial institutions seldom springs from a desire to benefit those most concerned. More often it is prompted by a desire to make business for somebody with a pull.

Why should not Roosevelt favor disfranchising Negro voters in the South? He favors disfranchising Republican voters in California.

MOTHER'S IDOL, FATHER'S PET

Where the Money Would Come From.

If San Francisco were granted her waterfront what would she do with it? The revenues of the port, over and above the cost of administration and maintenance, are pledged for many years to come to pay the principal and interest of the bonds the State has issued for wharf and dock construction.

San Francisco has about reached the limit of her borrowing capacity, and cannot raise money, in the near future at any rate, to improve her port facilities. She must depend upon the State, as she is doing now, to supply the facilities she cannot supply herself. The State will not continue to provide money for improving the waterfront after it is ceded to the city, and the money the State has already provided will have to be repaid before the surplus revenue of the waterfront can be expended for improvements.

By right, San Francisco ought to be given control of her waterfront, but the penalty she will have to pay for that control might as well be faced now as hereafter. The heavy load of debt the city is carrying forbids the issuance of municipal bonds to supply the additional port facilities which she demands, and it is not supposable that any of the revenue derived from current taxation can be spared for the improvement of the waterfront. Hence one cannot see where the money is to come from to pay for the extensive system of docks and wharves projected under municipal ownership.

Surely San Francisco does not contemplate annexing her neighbors that she may bond them for the improvement of her waterfront in case the State should cede it to the city? But where else is she to get the money? Oakland has been granted her waterfront, say the San Franciscans, why should we not be granted ours? The question is pertinent, but the analogy is not complete. The State never spent a dollar on Oakland's waterfront. The State never issued millions of bonds to improve it. The improvements on Oakland's waterfront have been made with money supplied by this city. We have issued bonds to defray the cost of the work and are able to issue more should more be necessary. We are willing that San Francisco should have control of her own waterfront, but not control of Oakland's waterfront. Nor are we willing that San Francisco should tax us to improve her port facilities. San Francisco's demand for the cession of her waterfront must be taken with her scheme of annexation. The two go together. Any fool can tell what would happen to our waterfront if San Francisco got control of it. San Francisco wants to tax us to improve her waterfront while neglecting to improve the waterfront of Oakland.

The passage of the Postal bill containing a parcels post provision is a distinct victory for President Taft. It is not in as desirable a shape as it should be, owing to the tinkering of Senator Bourne and his Progressive colleagues; nevertheless it is a good beginning. Ever since he went into office President Taft has been set on establishing a parcels post, and has urged it upon Congress with such insistence that his recommendation has finally been acted on favorably. The zone feature which Senator Bourne succeeded in grafting on the bill mars the measure, but it may be taken as quite certain that the parcels post will shortly be made to apply to the entire area of postal distribution on equal terms. What is needed is a flat rate for packages of limited size and weight for all distances, and this we would have had but for the pernicious interference of the Oregon Senator and his Progressive allies. Congressman Knowland voted for the parcels post as recommended by the President.

The objections to the third term are not removed by asserting that Taft is not a candidate. The objections are as strong as they were—stronger perhaps, by reason of the autocratic tendencies of the present third-term candidate.

It is to be hoped that the liquidation of the Continental Building and Loan Association will not be as disastrous for the stockholders as the liquidation of the California Safe Deposit and Trust Company has been for the depositors in that concern. Political interference in the affairs of financial institutions seldom springs from a desire to benefit those most concerned. More often it is prompted by a desire to make business for somebody with a pull.

Why should not Roosevelt favor disfranchising Negro voters in the South? He favors disfranchising Republican voters in California.

CONTROLLING TROPIC DISEASE

Whatever influence the demonstration of the value of modern scientific medicine in the control of disease in the Panama canal may have in this country, it is certainly having a good effect in tropical countries where the tendencies and ravages of tropical diseases are known. President Lucas of Chile, in a recent interview in a New York paper, after describing in glowing terms the effect of the opening of the Panama canal on commercial and financial conditions in South America, said:

"The spread of plague and preventable diseases has been one of the worst handicaps of tropical America. With sanitation such as that at Panama, there is no reason why South America should not maintain a vast population and support nations as advanced as any in the world. The Panama canal opens the gateway to the western coast of the continent and the elimination of disease from the Isthmus renders an even greater service to all Central and South America."

We have decided that we would request Washington to send us several sanitary experts from Panama, the men whose work has won you your country such enviable fame at least in South America. We personally would like to have the

services of one or Dr. Gorgas' services."

Colonel Gorgas prophesied some time ago that the control of tropical diseases, making tropical countries a safe place of residence for white men, opened up an almost incomparable field for the civilization of the future. Civilized man now has the knowledge necessary to make him free from many contagious diseases. Those diseases about which exact knowledge is lacking are rapidly being investigated. When the history of the present era is written, the most important facts to be recorded will no doubt be those connected with politics and international relations. The historian of the future will regard as a very important part of the present period the acquisition, beginning about 1870, by cultured men of the knowledge and control of preventable diseases. The extermination of plagues and epidemics will naturally be pressed most vigorously in tropical countries where the danger has been the greatest—Journal of American Medical Association.

The institution without a bell or a football team or a professor who says "Good morning" to his students, the Medical College manages to hang on remarkably well—Dr. S. R. Remond.

TRIBUNE NEWSBOYS HUNT BIG GAME AT MACDONOUGH

See Rainey Motion Pictures as Guest of This Newspaper

Several hundred TRIBUNE newsboys and carriers hunted wild game in the heart of British East Africa last night. In Newsboy Alley and on the streets all throughout the city, the boys who work for THE TRIBUNE night at the Macdonough theater, where Paul J. Rainey's African hunt moving pictures are being shown, are recounting the stirring scenes of that great expedition.

The stories that are being told of TRIBUNE night like nothing in realism, and all that the newsmen lack are a few trophies of the chase. The hunt was so near real, especially those parts in which dogs and man pursued and slew the cheetah and lion, that the boys who nearly reached the limit of their imagination simply could not resist taking the dogs out. They added whistle and cheers and hand clapping.

MARCH TO THEATER.

All this happened after the boys had assembled at THE TRIBUNE office, and had marched behind the Tribune Newsboys' drum corps up Broadway and out San Pablo avenue and back into Broadway to the theater. They took possession of the galleries and the boxes, and the noise of Africa like the fact that they were there. But the noise subsided completely before the first picture was thrown upon the

WHO'S SEEN ANY BLONDE BURGLARS

Cracksmen Get \$200 From a Grocery and Leave Empty Bottles as Clue.

SAN FRANCISCO, Aug. 16.—The daring cracksmen who have been breaking into grocery stores and butcher shops for several days past without much reward in the way of loot, made a successful haul early this morning when they forced an entrance into the grocery of George Becker, 8100 California street. The combination safe was broken from the side and \$200 taken. The cash register was also rifled and \$20 more obtained. When the detectives started out from headquarters to make their investigation they immediately began a search for two men much the worse for liquor, as after competing the robbery the culprits drank Becker's choice wines and whiskeys leaving a dozen empty bottles lying on the floor.

The grocer lived in an adjoining house together with George Bertram. The latter heard a noise at 1 a. m. and seized his revolver but as quiet followed he made no investigation.

BURBANK GETS LAND FOR CACTI

"Wizard" May Have 12 Sections at \$1.50 an Acre if Experiments Succeed.

WASHINGTON, Aug. 16.—The Senate yesterday passed a bill placing at the disposal of Luther Burbank twelve sections of land in California, New Mexico, Arizona and Nevada for the propagation of the spineless cactus. The bill, introduced by Rep. Burbank succeeds in growing on this semi-arid land cacti suitable for animal food for a period of two years the land shall be sold to him for the regular \$1.50 an acre Government land rate. The bill already has passed the House.

TIMEKEEPER ACCUSED OF MISAPPROPRIATION

SAN FRANCISCO, Aug. 16.—Francis H. Squires was arrested this morning and booked at the city jail on two charges of felon embezzlement. According to the complaining witness, George H. Bradner, who swore to the warrant against the accused, Squires has misappropriated \$1000 belonging to Mahoney Brothers, contractors. The concern has been constructing the new municipal railroad on Court street, and it is claimed that Squires, while acting as time keeper, succeeded in using for his own benefit sums aggregating the amount mentioned. His case will be heard tomorrow in the police court.

RELIGIOUS WORKER IS KILLED BY AUTOMOBILE

SEATTLE, Wash., Aug. 16.—Mrs. Ethan Biles, 44 years old, a prominent religious worker and leader of the choir in the Unitarian church, was knocked down and killed at Broadway and East Howell street last night by an automobile driven by Oliver W. Curtis, a retired lumberman, having come home late up to the police, who released him on \$250 bail pending an inquest.

AUTOPSY DISPROVES LETTER OF SUICIDE

ST. LOUIS, Aug. 16.—Mrs. Hallie F. Forrest, daughter-in-law of General Nathan B. Forrest, a noted confederate officer, who killed herself in a park yesterday, was buried today. An autopsy showed no ground for the charges contained in her farewell note.

TO TAP OAKWOOD RANCH, WALNUT CREEK.

Intermediates to play fifth game of series

The De Fremery Park playground team of intermediates will meet the Bushrod Park playground intermediates in a baseball game tomorrow afternoon at 2:30 in Bushrod Park playground, Sixty-first and Bushrod avenue. This will mark the third meeting of the season. The present standing of the two teams records three victories for De Fremery and one for Bushrod.

The teams will line up tomorrow as follows: De Fremery, right field; Fenton, shortstop; Everett, centerfield; Jackson, third base; Hodgeson, second base; Fernell, left field; W. Hurst, pitcher; Skaggs, first base; Daniels, catcher.

De Fremery, Trout, left field; Downey, shortstop; O'Connor, second base; Skaggs, first base; Mason, third base; Whelan, right field; W. Carter, pitcher.

FIGHTING JACK HAYES DIES.

MORGANTOWN, N. C., Aug. 16.—Brigadier General Edward Mortimer Hayes, U. S. A., a retired, familiarly known as Fighting Jack Hayes, died yesterday. General Hayes served in the Civil War and in the Spanish-American War, and in many Indian campaigns and in Cuba and the Philippines.

If you know of a real man of whom you would like to hear, let me know of the names, and I will publish them.

OROZCO SEEKS SAFETY IN FLIGHT

Evacuates Juarez as Mexican Federal Troops March From South.

Rebel Leader Practically Surrounded and in Desperate Straits.

JUAREZ, Mex., Aug. 16.—General Pascual Orozco left Juarez early today, leaving behind a small garrison to observe orders until the arrival of federal troops. The guards left the customs house, but secured no money. The American and German consuls organized a citizens committee to protect the city, with Benito Alvarado in command. All saloons and most of the stores were closed. United States border patrols stopped all traffic from the American side.

Federal troops moving along the railway to the southwest are already entering the town when the last rebels gone. This arrangement evidently was made to prevent the repetition of the battle of Juarez in the Madero Revolution when El Paso was showered with bullets. General Pascual Orozco, the rebel commander-in-chief, has been promised that there would be no fighting in Juarez. He is engaged in trying to work his way out and is practically surrounded.

WOULD JOIN FORCES.

The rebel forces here will join General John Carver's force, said to number 1500, who have been stationed south of Juarez along the Mexican Central line. West along the border from Juarez to Palomas, opposite Columbus N. M., is another rebel group numbering more than 1,000 men.

It is the mobilization of these three bodies that Orozco will attempt to accomplish, in the meantime avoiding the federals.

The evacuation of Juarez was orderly. Two trains departed south during the night, each carrying about 400 men. General Orozco remains in Juarez with a scant 200 followers. The rebels are bound for Sonora, the border State to the west, where the remnants of Orozco's former army have sought refuge.

As the last rebel soldier leaves the town, members of the citizens' vigilance committee will arm themselves and establish a police system until the occupation by federal troops. Juan N. Medina, a former Mayor of the town and ex-leader of the army, will be provisional commander.

OROZCO SEEKS PEACE?

DALLAS, Tex., Aug. 16.—That General Orozco has receded from his demand that President Madero retire from office and will abandon his revolution against the Mexican government if certain reforms are established is the declaration of Dr. Henry Allen Tupper of Brooklyn, representative of the International Peace Forum, who interviewed Orozco at Juarez last week. Dr. Tupper was in Dallas yesterday en route to Washington, where he will confer with President Taft.

"Statements have been made heretofore that Orozco would never consent to peace until Madero retired," Dr. Tupper said. "In his interviews with me Orozco said he is very anxious for peace and will not insist upon Madero's retirement. He said he will not make that an ultimatum, but will insist on certain reforms, such as the discontinuance of nepotism on the part of Madero."

Dr. Tupper exhibited a personal letter by Orozco in which the latter said "he vehemently" was anxious for peace. He also exhibited, but not for perusal, a 2000-word statement which he said set out the conditions on which Orozco will agree to cease his revolution. Dr. Tupper said the contents of this statement may be given out for publication when he reaches Washington.

In this statement Orozco makes concessions which he has never before made and I believe they may be the basis for peace," Dr. Tupper said. "The movement was entirely on my initiative and I wish to emphasize that President Taft, who is the honorary president of the International Peace Forum, has not been consulted in the matter and will not be until next week."

FEAR AN INVASION.

EL PASO, Tex., Aug. 16.—An invasion of American soil by Mexican rebel troops is feared by United States army officers and this it has been learned on reliable authority has led to the rushing here of additional cavalry from Fort Sam Houston. The post is situated directly on the New Mexico boundary just west of Columbus N. M., opposite which town more than 1000 rebels are located.

At a point 100 miles east of El Paso, the New Mexican line, bounding on Old Mexico, turns abruptly to the south for a stretch of thirty miles and there resumes a course due west. It is this short cut "across lots" that is feared the rebels at Palomas will employ in making the retreat from Sonora coincident with Orozco's evacuation of Juarez.

The reason for the intrusion on Mexican soil is that the rebels are guarding the pass along the border of the post and by cutting across this slice of New Mexico, a ranch and mining country, sparsely inhabited, the rebels could evade the federal forces and enter Sonora without danger of an engagement.

AMERICAN BEHEADED.

MEXICO CITY, Aug. 16.—Beheaded by rebels after they had carried him away as a captive from a point near Morelia, capital of Michoacan, is the fate of Rowan Ayers, an American civil engineer, according to official reports given by the minister of war to Ambassador Wilson.

Bordered Comforters

Full double bed size. Comforters finished with 9 inches plain silk-like border; scroll stitched. Regular \$2.50 value. Special \$1.98

SKULL FRACTURED; BOY IS CHEERFUL

Concord Lad Kicked by Horse Shows Recuperative Power.

The vitality and recuperative power of a six-year-old patient at the Nauehm Sanitarium in this city, has furnished the attendants and physicians of Oakland with an interesting subject for observation and discussion. The case is said by interested physicians to be one of the most remarkable in their experience.

The little patient is Alfred Nicholson, son of a well-to-do Concord farmer. Last Saturday morning the youngster, in a spirit of boyish mischief, pulled the tail of one of his father's horses and the animal's return kick landed squarely on the lad's forehead, fracturing the skull for more than three inches and driving a piece of bone two inches long and an inch wide into the cranial cavity.

Two hours later the distressed parents had reached Oakland in an automobile, bringing with them their little boy, still unconscious, and apparently lifeless. Dr. J. L. Lohse was hastily summoned and an operation was performed at the Nauehm Sanitarium.

The surgeon's knife made an incision clear across the boy's forehead, exposing the splintered skull and the pulsating brain. The damaged lobes of the brain were washed, the broken parts of the skull removed, the periosteum (covering of the bone) restored as much as possible, and the skin of the forehead sewed together.

Since morning the attending physi-

cians and nurses were astonished to find Albert sitting up in bed apparently in perfect health and eager for breakfast. It was with difficulty that they could keep him in bed, and apparently there was nothing but the bandages about his head to distinguish him from any happy, healthy American youngster.

The danger of tetanus, always something to be reckoned with in cases of the kind, has not put in an appearance, possibly due to the fact that the physicians used 1500 units of anti-toxin to guard against such a peril.

ALICE

It is said, will take place at Old Orchard, Me., within a few days. Mr. Hathaway is 72 years old and his prospective bride is 39.

Mr. Hathaway didn't think it was strange that he, at 72, should want to marry, away, at No. 153 Spring stet, this city, a young "girl of 39," and furthermore, he remarked, "it's none of anybody's business."

Miss Johnson is prominent in Plymouth, but it was not known here until recently that she and Hathaway were acquainted.

"A man has a right to do as he pleases as long as he behaves himself and obeys the laws. That is what I am doing, and I don't think it is any one's business whether I get married or stay single. I guess I have a right to get married and anyone else."

"Mrs. Johnson is prominent in Plymouth, but it was not known here until recently that she and Hathaway were acquainted.

MONDAY

Girard's Consolidation Sale Starts

The Girard Piano Co. and the Busey-Mihan Furniture Co. have merged into one great concern, to be known in the future as GIRARDS. The greatest sale of Pianos, Furniture, Carpets, Draperies, etc., in the history of Oakland will start Monday morning at 8:30 o'clock at the former Busey-Mihan store, 517-19 14th street, across street from City Hall. Watch for Sunday ad.

Yours truly,

GIRARDS.

New Location, 517-19 Fourteenth

JUDGE'S DECISION IS AGAINST CONTINENTAL

MULLINS OPENS BATTLE FOR OFFICE; GRASPING INTERESTS OPPOSE HIM

ECONOMY HIS PERPETUAL SLOGAN

Chairman Board of Supervisors incurs Enmity of the Greedy Politicians.

Those Who Would Prostitute Public Affairs, in Fight Against Him.

John F. Mullins, Chairman of the Board of Supervisors, and candidate for the Republican nomination for Supervisor from the Fifth District, has opened headquarters in Room 210, Security Bank Building, at Eleventh and Broadway.

Senator Edward J. Tyrrell is devoting a great deal of his time both in and out of the headquarters, to promoting the candidacy of Mullins and reports the sentiment of the district overwhelmingly in favor of the return of Supervisor Mullins to the position he now occupies.

PEOPLE INTERESTED.

The people of the district are taking a very active interest in Mullins' campaign, as they realize he is being opposed by a certain coterie of politicians who have felt both physical and financial depression by reason of Supervisor Mullins' insistence that the affairs of the County should be run along economical and businesslike lines, rather than with the idea of fattening certain politicians and other interests.

Supervisor Mullins' jealous regard for the best interests of the county, coupled with a fearless attitude toward those who would prostitute public affairs for their private gain, is largely responsible for the opposition he is now experiencing and his endeavor to secure a renomination for the office he has so ably filled during the last four years.

Los Angeles to Keep Free Lunch for Awhile

LOS ANGELES, Aug. 16.—The free lunch has won its fight for an existence in Los Angeles saloons, until after the next election at least, and the ordinance abolishing it will not go into effect September 15.

The referendum petition circulated by produce commission men was handed to the city clerk yesterday, bearing 26,500 signatures, and will act as a stay of execution of the council's order, until the latter body either repeals the law or places it before the people at the next election.

JOHN F. MULLINS, CHAIRMAN ALAMEDA COUNTY BOARD OF SUPERVISORS AND CANDIDATE FOR RE-ELECTION.

PARENTS LEAVE BOY IN PARK AND DISAPPEAR

Tearless Eight-Year-Old Youth Is Found Sleeping on Bench

Tearless but somewhat perturbed, a small, eight-year-old boy is at the Detention Home, having been placed there about midnight last night after he had been found sleeping in Jefferson park by Patrolman George Nightingale. "My mother and father took me to the park in the morning and told me to play there till they came back," he said. "I was going to San Francisco. I played all day and got tired and went to sleep on a bench." The police think the parents of the boy may have deserted him, as no trace of them has been made, so far as they know, to find him.

"My name is Walter," the boy explained, "and I live in Kansas City. Pressed for further information, Walter

explained that he had come to Oakland with his parents some weeks ago, and that they had rooms near Jefferson park. He had not been home since the time he was taken.

The boy told Captain Charles Bock that his father's last name was Elliott, but that his name was Walter George Remley, Elliott being in fact his stepfather. He said he had two sisters, one more going to San Francisco. I played all day and got tired and went to sleep on a bench.

The police think the parents of the boy may have deserted him, as no trace of them has been made, so far as they know, to find him.

"My name is Walter," the boy explained, "and I live in Kansas City. Pressed for further information, Walter

located his parents.

"My name is Walter," the boy explained, "and I live in Kansas City. Pressed for further information, Walter

located his parents.

Explained that he had come to Oakland with his parents some weeks ago, and that they had rooms near Jefferson park. He had not been home since the time he was taken.

The boy told Captain Charles Bock that his father's last name was Elliott, but that his name was Walter George Remley, Elliott being in fact his stepfather. He said he had two sisters, one more going to San Francisco. I played all day and got tired and went to sleep on a bench.

The police think the parents of the boy may have deserted him, as no trace of them has been made, so far as they know, to find him.

Side Whiskers, Popular in 1830, to Grow Unhampered; There's More, Below

NEW YORK, Aug. 16.—According to the very latest advices from London, the newest fashions for men is side whiskers. This is said to be part of the current English craze for a revival of the costumes of 1830. It is added that trousers are to be strapped over the boots and scented handkerchiefs are to be modish for fashionable youths.

Detectives Sent to Massachusetts for "Gib the Blood" and "Lefty Lou."

NEW YORK, Aug. 16.—District Attorney Whitman hopefully awaited today word from Methuen, Mass., regarding Harry Horowitz, known as "Gib the Blood," and Louis Rosenzweig, alias "Lefty Lou," the two much wanted gunmen in the Rosenthal murder case. Four detectives are searching for the gunmen who sent a tall-tale postcard to "Bridie" Webber. Webber received the postcard yesterday enclosed in an envelope. The gambler tore up the evidence. The card read:

"Dear Pal: Do the best you can. We are all right."

(Signed) Your Pals, L. and G."

The imprisoned gambler showed the card to his counsel, Max Steuer, saying he was convinced that it was "Lefty Lou's" writing.

Steuer informed State's Attorney Whitman and prison keepers combed Webber's cell for the bits of torn envelope, which, after much trouble, was reconstructed from the pieces. The envelope showed that it had been mailed from Methuen, Mass., Wednesday.

DETECTIVES SENT OUT.

District Attorney Whitman telephoned to Deputy Police Commissioner Dougherty, who at once sent four detectives to Methuen. There were reports that Horowitz has relatives in Methuen.

A reward of \$500 has been offered by District Attorney Whitman for the arrest of the two gunmen. The money will be paid for the fugitives, dead or alive.

The district attorney said he did not want to start the murder trial until he had captured Horowitz and Rosenzweig, unless he had to. The public prosecutor has asked Governor Dix for an extraordinary session of the Supreme Court to try the Rosenthal murder cases and the governor, it is understood, will appoint Justice Goff of the Supreme Court.

Justice Goff presided at the first trial of Roland B. Mullineaux and the murder trials of Dr. Samuel Kennedy and Albert T. Patrick.

Until the arrival of Sam Schepps, now on his way here under guard from Hot Springs, Ark., there seemed little likelihood of the development of any startling phases in the Rosenthal case.

HERE THE OPPORTUNITY FOR COMPARISON IS BETTER THAN IN OFFERED ELSEWHERE ON THE COAST, AND EACH PROSPECTIVE BUYER HAS THE SATISFACTION OF KNOWING THAT HIS EVERY INTEREST IS FULLY PROTECTED. EASY PAYMENTS MAY BE MADE, AND YOUR OLD PIANO CAN BE CHANGED AT FULL VALUE.

Big Strong Lines of Specially Worthy Suits \$15 to \$40

You may see here Saturday the greatest collection of new Fall Suits for men that you have ever laid eyes on. These are the special product of our own Eastern organization and represent every new idea in style, pattern and color in men's wear for Fall. No suits of any other make will equal these in real style and in genuine good value, for they are priced direct from the factory to the retail customer with a saving of at least one of the intermediate profits.

Back of every one of these suits is the experience gained in years of manufacturing and into them has been put the highest grade of tailoring that can be secured in New York City.

These suits are guaranteed for absolute service and a new one is waiting for any dissatisfied customer.

We invite you to try on these new Fall models today or tomorrow and to profit by the savings that can be effected through their purchase.

Youths' Suits \$15

Smart new college-cut suits for young men from 15 to 21 years. Two and three-button styles, in full box and regular backs, with extreme cut trousers. These suits are specially well tailored and are full of style and character. On sale Saturday at the above prices.

First Fall Sale of Women's Suits Continued Great Values at \$9.75, \$15, \$19.50 and \$25

Generous assortments of the newest fall merchandise, in sizes for women and misses, on sale at these prices. Values in nearly every case double.

FAIL TO PASS BILL OVER TAFT'S VETO

Senate Defeats the Attempt by
by a Decision of
39 to 32.

WASHINGTON, Aug. 16.—An attempt to pass the steel tariff revision bill over the president's veto led by Senator Simmons, was lost in the Senate today, 39 to 32. The House had passed it over Taft's disapproval. Congress is uneasy over the situation created by President Taft's veto of the legislative executive and judicial appropriation bill.

The House, failing to pass the measure over the president's veto yesterday, is prepared to drop the civil service seven-year provision and again force the president to pass upon the abolition of the commerce court.

A canvass of the Senate was begun to develop the attitude of the majority, while a bill to abolish the commerce court probably would be approved by the Senate, members decided again to attach the provision to an appropriation bill and call down another veto that might prolong the session.

Both houses are being canvassed to find out whether the bill could be passed over a veto if it contained only the commerce court provision.

Attempts are being made to dispose of business so that adjournment may be reached next Thursday, but the appropriation bills are a stumbling block. The conference over the postal bill has begun, but the general deficiency bill has not yet been taken up in the Senate and the army bill has not entered conference.

The sundry civil, Indian and naval bills are still in conference.

CONSULAR APPOINTMENTS.

WASHINGTON, Aug. 16.—Among the nominations sent to the Senate by President Taft was that of Harry E. Nolan, of Washington state, a rancher, to be secretary of legation at Panama, and Lester Maynard of San Francisco from Consular service at Harbin in Amoy, China.

**PASTOR ASSIGNED
TO NEW CHURCH**

Rev. E. J. Singer, field secretary of the California Congregational Home Missionary Society, has completed his work at Olivet Church in this city. The pastor, Rev. Benjamin Gould, is again in charge of the church, having returned from a pastorate at Fresno, where he successfully carried to completion the building of a new church. Rev. Singer now goes to the Boulevard church, between Oakland and Berkeley.

Rev. Singer is also serving as pastor of the Bethany Congregational Church, corner California and Carlton streets, Berkeley.

GIBSON TO WRITE 'ANTI' ARGUMENT

President of Chamber of Commerce to Take Up Pen vs.
Consolidation.

SACRAMENTO, Aug. 16.—Lieutenant Governor Gibson, who today notified Secretary of State Johnson that he proposed to write several persons to argue arguments for and against the proposed initiative measures, which will go upon the ballot at the general election in November.

Senator Leslie H. Keeler of Los Angeles was named to write the argument for the measure providing for the consolidation of cities or counties where the combined population is 25,000 or more. Frank Thompson of the Oakland Chamber of Commerce, will write the argument against it.

Colonel J. C. Kirkpatrick of San Francisco has been named to write the argument for the initiative measure providing for the establishment of Statewide transportation commission, and track lighting under the Public utility system. John M. Eschleman, State railroad commissioner, will write the argument against it.

H. F. Mason, supervisor in San Francisco, will write the argument in favor of the home rule and taxation initiative measure, and State Senator Thompson of Los Angeles will write the argument against it.

Under the law these arguments must be printed by the State, together with the proposed measures and then distributed to voters of all parties throughout California.

PROPOSED MEASURE DRAWS OPPOSITION

Corporations Averse to Filing
Monthly Plats of Street
Work Proposed.

Proposed passage of an ordinance drafted at the instance of City Superintendent of Streets Perry F. Brown met with opposition from the People's Water Company and the Pacific Gas and Electric Company this morning when the bill came up for its first reading. The portion of the law objected to amends a present ordinance regulating the digging and disturbance of public streets, and compelling corporations using the streets to submit monthly plats and maps of the pipes, conduits, underground cables or other equipment laid down in the streets, this information to be on file in the office of the street department to be used by the department in its handling of street work.

Attorneys Charles E. Snook, representing the light company, and Arthur Tashler, representing the water company, appeared before the council this morning to oppose the amendment. They declared that the filing of such information would be, in effect, the exposure of their plans and operations to their business competitors, and that this formed an invasion of their rights. Vested threats that if the ordinance was passed its enforcement would be contested in the courts, were made by Judge Snook.

The matter was deferred for further consideration as Commissioner of Streets W. J. Bacus was absent this morning. The portion objected to reads as follows:

"Section 12. It is hereby made the duty of every person, firm or corporation owning, using, controlling or having an interest in pipes, conduits, ducts or tunnels under the surface of any public street, alley, sidewalk or other public place for supplying or conveying gas, electricity, water, steam, ammonia or oil, to or from the city of Oakland, or to or from its inhabitants, or for any other purpose, which may be affected by the passage of this ordinance, to file in the office of the superintendent of streets a map or a set of maps, which shall map or sets of maps shall show in detail the exact location, size, description and date of installation, if known, of all mains, laterals, services and service pipes, and of all valves, pressure regulators, drips, manholes, handholes, transformer chambers or other appliances installed beneath the surface of the public streets, alleys, sidewalks or other public places in the city of Oakland, belonging to, used by or under the control of such person, firm or corporation or of which such person, firm or corporation has any interest. It shall also be the duty of every such person, firm or corporation to file, within fifteen (15) days after the first day of January of each and every year, a corrected map or set of maps showing the complete installation of all such pipes and other appliances, including all installations made during the previous year."

TO ATTEND CONVENTION.

Robert A. Archibald, city meat inspector, has gone East to attend the convention of the American Veterinary Medical Association of which he is a member. The meeting is being held at Minneapolis and will be in session for fourteen days.

This is the automobile we are going to give away September 2. A coupon furnished with every 25¢ purchase.

'HE'S MY HUBBY; RIGHT TO WHIP'

Pretty Wife Has Faith in the Duties of Spouse From Texas.

"Well, he's my husband, isn't he? He's got a right to whip me if he wants to."

This expression of faith in the rights of her husband to administer corporal chastisement saved Boney Headington "bad man from Texas," from a heavy sentence when he appeared before Judge Aaron Turner, sitting for Judge George Samuels in the local police court this morning. Mrs. Headington, a pretty 22-year-old girl with dark hair, who was arrested on the complaint of her father, Dr. E. F. Adams, 3119 East Tenth street,

Headington and his father-in-law have had trouble for some time. Some weeks ago Dr. Adams concluded that young Headington was bad and should be sent to the hospital. Dr. Calen agreed that the young man should be taken to the hospital. Headington failed to see any reason in the plan, so he requested the services of two of Captain Thorward Brown's huskiest patrolmen to remove him to the health resort.

The master was deferred for further consideration as Commissioner of Streets W. J. Bacus was absent this morning. The portion objected to reads as follows:

"Section 12. It is hereby made the duty of every person, firm or corporation owning, controlling or having an interest in pipes, conduits, ducts or tunnels under the surface of any public street, alley, sidewalk or other public place for supplying or conveying gas, electricity, water, steam, ammonia or oil, to or from the city of Oakland, or to or from its inhabitants, or for any other purpose, which may be affected by the passage of this ordinance, to file in the office of the superintendent of streets a map or a set of maps, which shall map or sets of maps shall show in detail the exact location, size, description and date of installation, if known, of all mains, laterals, services and service pipes, and of all valves, pressure regulators, drips, manholes, handholes, transformer chambers or other appliances installed beneath the surface of the public streets, alleys, sidewalks or other public places in the city of Oakland, belonging to, used by or under the control of such person, firm or corporation or of which such person, firm or corporation has any interest. It shall also be the duty of every such person, firm or corporation to file, within fifteen (15) days after the first day of January of each and every year, a corrected map or set of maps showing the complete installation of all such pipes and other appliances, including all installations made during the previous year."

"The report says your husband uses a horsewhip on you," said the Judge.

"Well, I was in wrong, wasn't I? And he's my husband. I guess he's got a right to do it."

The explanation proved satisfactory to his honor, and young Headington was released with a reprimand, and was allowed to forfeit \$20 of the \$100 bail that he had given under the impression that he was a "bad man from Texas with a shootin' iron."

"He took a shot at Boney and clipped my hair with the bullet. I'd rather have my hair singed some other way."

"If the report says your husband uses a horsewhip on you," said the Judge.

"If the report says your husband uses a horsewhip on you," said the Judge.

"Well, I was in wrong, wasn't I? And he's my husband. I guess he's got a right to do it."

The explanation proved satisfactory to his honor, and young Headington was released with a reprimand, and was allowed to forfeit \$20 of the \$100 bail that he had given under the impression that he was a "bad man from Texas with a shootin' iron."

"He took a shot at Boney and clipped my hair with the bullet. I'd rather have my hair singed some other way."

"If the report says your husband uses a horsewhip on you," said the Judge.

"Well, I was in wrong, wasn't I? And he's my husband. I guess he's got a right to do it."

BERKELEY

RAILROAD BUYS DEPOT SITE LOT

Railroad Commission's Hearing Postponed for Month and a Half.

BERKELEY, Aug. 16.—Despite the fact that the Southern Pacific Company opposed before the State Railroad Commission yesterday the plea of the city for a main line station in West Berkeley, it became known before the hearing was ended that the company had already purchased the site for the desired depot and planned improvements in the service. At the conclusion of yesterday's hearing the city and railroad were directed by Commissioner Max Thelen to file briefs of their sides and the hearing was postponed about forty days to permit this being done.

The site purchased by the railroad has a height of 73 feet on University avenue and 200 feet on Third street. The site is within six minutes' ride of the center of the city and within easy walking distance of University and San Pablo avenue.

The deal was consummated on Tuesday through Raymond H. Bailey and Eugene L. Brock, holders of the property. It represented an outlay of \$11,000. It is one of the best locations in the West End, according to reality dealers, as it is a southeast corner. The deal passed through the hands of W. R. Scott.

The Berkeley Manufacturers' Association passed resolution several months ago favoring the purchase of a new station site by the company and suggesting the property which has now been purchased. T. H. Fallon was chairman of the committee of manufacturers who visited Assistant Manager Scott and placed the case before him, asking him if the company would purchase a depot site and erect thereon a station. They also asked for improved main line train service. The railroad official promised all of these improvements and about a month ago sent a communication to the manufacturers in which he practically assured them that the company was ready to close the deal on the proposed site for a station.

BURGLAR FINDS BARE FEET IRRESISTIBLE

ST. LOUIS, Aug. 16.—A burglar tickled the feet of Bessie Olinsky, 18 years old, after ransacking her room at the home of Mrs. George G. Guru, 810 North Market street, Friday afternoon, according to her report to the police. Awakening with a start, Miss Olinsky heard the burglar chuckling as he darted from the room with her watch.

Miss Olinsky lives in Joplin, Mo., and arrived at the Goruchovsky home for a visit Friday noon. Being exhausted from a round trip across the country on a tour, she lay down on the sofa. The tickling sensation on the soles of her feet awakened her.

The police arrested three men who were at work on the Goruchovsky premises, but none was identified by Miss Olinsky.

Motorcycle Perfection
1912 Reading Standard Motorcycle, with new spring adjustable shock absorbing seat post, absolutely vibrationless, "Camel Back" frame, built of heavy gauge seamless steel tubing, strongly reinforced, extremely low saddle, ready, reliable Reading Standard Motor give comfort, safety and speed.

LIFETIME FRIENDS FOR SEVENTY YEARS

Two Alamedans Who Were Chums Since Boyhood Are Parted by Death.

ALAMEDA, Aug. 16.—A story of lifelong friendship between two men came to light yesterday with the death of Christ School at the home of his friend and former business partner, August Nomen, 2341 Pacific avenue. Schell was 82 years of age and Nomen is a year younger. The two went to school together in Germany. Later they went to Australia and for 40 years were partners in a mercantile venture in Victoria.

Eighteen years ago they came to Alameda and Schell died in his residence with Nomen and the latter survived. The Nomens family mourn the death of their old friend as they would have been a well-loved relative.

Funeral services for Schell were held at the Nomens home today. Christopher Russ, county probation officer, who was formerly pastor of the Alameda Unitarian church, conducted the services.

ALAMEDA FIREMAN IS CRITICALLY ILL

ALAMEDA, Aug. 16.—Bruno Stelzmetz, acting engineer of the Chestnut street firehouse, is critically ill in his quarters at the firehouse. His physician plans to move him to a hospital as soon as his condition will permit. The sick man is suffering from a complication of troubles, based chiefly on an old back injury, sustained at the time of the Landerman opera house fire ten or twelve years ago, when a huge beam from the opera house balcony fell and injury has developed an affection of the nerves of the back.

Stelzmetz has been connected with the department for over 12 years. He is

in line to be appointed regular engineer of the Chestnut street steamer, following the retirement of Engineer John Matthes a few weeks ago.

Frank Wagner, attached to the Webb avenue firehouse, is the other department engineer eligible to the place being filled by Stelzmetz. Whether the position will be finally filled through a competitive examination or by out and out appointment is not yet determined.

While Stelzmetz is ill his place as acting engineer will be filled by Captain James Dol Vecchio, who is in charge of the Chestnut street firehouse. The sick man is a brother of Fire Chief Walter Steinmetz.

WOULD HOLD BOXING BOUTS IN PAVILION

ALAMEDA, Aug. 16.—The Alameda Athletic Association is to petition the city council at the meeting of the committee of the month next evening for permission to hold a boxing exhibition at the Wigwam in the Neptune gardens on September 1. It is the intention of the management of the gardens to demolish the historic old hall next month to make way for the new improvements in the way of a mammoth amusement park.

Most all of the ring fighters who have fought in matters late, including Joe Gans, Bob Fitzsimmons, Jimmie Britt, Eddie Hanlon and a large number of others, are trained at the Wigwam, which was known as Croft's training quarters, and the boxing entertainment will be a fitting close to its history.

The Wigwam was formerly the old open-air dancing pavilion of the Neptune gardens when that place was at its height as an amusement park 25 years ago. It was since enclosed and has been used mostly for training prize fighters ever since.

The original plan of the club was to ask permission to hold the bouts in Recreation park, to no avail, but that the fact that this will be the last chance to hold attraction in the old hall caused the promoters to change their minds and ask permission to hold the show there.

CLAIMS AGAINST CITY ARE ALLOWED

On the recommendation of Commissioners of Finance and Revenue John Forrest the following claims against the city treasury were allowed by the city council this morning:

On the electrical fund: Charles Muller, \$72.48; Joseph Hanley, \$69.25; W. J. Morris, \$59.25; Al Rizzo, \$66.96; H. L. Gill, \$49.95.

Christian Weakens in Southland and Happy's Gang Bats Silent Heaver All Over Lot

CHRISTIAN AND PARKIN LOSE LUCKY HORSESHOE

Oaks' Heavers Are Easy for the Tigers and Rally Puts Happy Out in Front Again

LOS ANGELES, Aug. 16.—There is no stopping Happy Hooligan and his clawing Tigers. With defeat staring them in the face, his fighting men came to life in the eighth inning and tied up the score and then in the ninth they chased over the ones that won.

It was nine for Oakland and four for Happy when the eighth opened, so you can see what a lead those fellows overcame. In that eighth inning, Vernon made five runs by knocking Christian out of the game and also in all, won the game in the ninth inning at Washington Park. The Oaks knew Castleton into the club house in the fifth, however, and what said about that made it for Christian.

In the Tigers' great hitting relay they hammered Christian for six hard swats, of which four were doubles. The Oaks made four with two knocked five hits off Christian in the fifth.

CARLISLE STARTED RALLY.

Carlisle, the first up in the eighth, grounded to first and when Sharpe got the ball he made a bad throw of it to Christian at the bag. Carlisle overran first and then ran down to the base. McDonnell hit to center and then Bayless fumbled to Sharpe. Brastetter at bat hit over third base for a double. Hesp doubled to right. Litschi singled to left. Burdett doubled to left and Agnew to right. They scored.

Cy Parkin was hurried in from the warming up line. With the score still tied in the last half of the ninth, Carlisle went to right field and scored on Jim McDonnell's fly sacrifice and to third on Bayless' out at first. Then with two out and the winning run on third, Brastetter hit a grounder down to Agnew who made a bad throw of it to first and Carlisle scored, ending the game.

CASTLETON BLEW UP.

Castleton began to heave for the Tigers, but he had to quit when the Oaks began to slug him in the fifth. Patterson started the first hitting relay with a single, then to the one on Zacher's double and scored on a wild pitch. Cox was passed. Hertling popped to Burdett. Cook hit to center and Sharpe doubled over first. Dally went to the bag and scored on Rohrer's hit for a single that scored Cole with the fourth run of the inning.

Both teams scored in the first inning. Lead started for the Oaks by being hit by a pitched ball and advanced on Patterson's out to Castleton. Zacher singled, scoring Lead.

Carlisle scored, while Agnew and Bayless singled, which scored Carlisle.

OAKS GET TWO.

In the second Hesp doubled and was sacrificed to third, but was out trying to steal home.

In the third the Oaks started again, with one out. Lead was again hit by a pitched ball, but Patterson forced him at second. Zacher doubled and Cox at third, scoring both. Patterson and Zacher.

Zacher came right back in the same inning and got "up." With Castleton out, Carlisle and Stinson singled in succession. Bayless was there with a triple, which scored Lead.

Then the Oaks got two runs in the fourth and five in the fifth and apparently clinched it up. The Tigers ran

W.C.T.U. CLOSES
BIG CONVENTIONMODERN SCHOOL
FOR CENTERVILLE
CHICKEN COOP IS
CAUSE OF TROUBLE

The Session of Contra Costa Organization Interesting to Public.

RICHMOND, Aug. 16.—The second and last day of the 20th annual county convention of the W.C.T.U. of Contra Costa place in the city, proved an interesting session, many important matters were considered by the delegates who were present from sections of Contra Costa county. The members of the local W.C.T.U. assisted by members of the women's clubs and others, made the two days' session of the county women's most interesting, chief interest was given to the session in John J. Foley, a San Francisco architect, being awarded the job by the board of trustees.

The new school building will be built along the most modern lines with due regard to heating and ventilation. The new structure is of Spanish mission design, with a tile roof and metal lath and plaster on the exterior walls. The interior finish will be Oregon pine with oak floors. A feature of the new structure will be a warm air heating system for winter and a cooling plant for summer months. A number of stores will be installed and a complete system of call bells connecting the different portions of the building will add to the safety of the building in case of fire. In addition to this preparation against fire, the building is well supplied with exits. The wants of the school children will be taken care of by six large class rooms and an assembly hall capable of seating over 400 persons. The building will probably be ready for occupation about the early part of next year.

9:00 a. m.—Voluntary, Miss Marie Christians, Flynn, Devotional, Mrs. Mary J. Border.

9:30 a. m.—Election of county officers.

Mrs. Sarah J. Dore, state president.

10:30 a. m.—Music, Recitation, Mrs. Mary Newman.

10:45 a. m.—Flower mission work, Mrs. May Spencer.

11:15 a. m.—Noon tide prayer and praise service by Mrs. M. A. R. Dixon, Rev. Gaffee—Drum corps.

Devotional—Mrs. Sarah J. Dore.

Music—Richmond Y.W.C.A. in charge.

Address—Economic Side of the Liquor Traffic, by Mrs. S. M. Woodman.

Richmond Quartet.

Address—Our Y. Work, Mrs. Wheeler.

The officers in charge of the convention were:

County president—Mrs. Alice D. Dickenson, Martinez R. F. D.

Vice-president-at-large—Mrs. Mary J. Borden, Walnut Creek.

Corresponding Secretary—Mrs. Linda Busey, Concord.

Recording Secretary—Mrs. Frances Christian, Antioch.

Treasurer—Mrs. Adelle B. Schott, Antioch.

L. T. L. secretary—Mrs. Ida Bacon, Oakland.

Auditor—Mrs. M. E. R. Dixon, Richmond.

SUPERVISOR RIHN
MAKES LARGE DEAL

RICHMOND, Aug. 16.—Supervisor Charles J. Rihn returned yesterday from a two weeks' trip to the southern part of the state, during which he closed a deal for a 10,000-acre tract of land in the Imperial Valley for a coterie of capitalists of Richmond, Oakland and San Francisco. The deal was closed before Rihn's return home and means that he and his associates have now in control of the largest and most fertile land holding in the Imperial Valley. The property is to be improved and subdivided into small farms and placed on the market, Rihn having charge of the sale of subdivisions.

MARTINEZ PIONEER WOMAN PASSES AWAY

MARTINEZ, Aug. 16.—Mrs. Ellen Downs, one of the pioneer women of the city, died yesterday afternoon at her home at the age of 82. Mrs. Downs was a native of county Galway, Ireland, and the widow of James Downs. The funeral will be held Saturday morning and the interment will take place in Holy Cross cemetery, San Francisco.

HAYWARD NOTES

HAYWARD, Aug. 16.—Mrs. Samuel Madson, daughter Mildred and son Sam have returned home from their visit with relatives in Sonoma county.

Mrs. H. H. Nelson of San Lorenzo, mother of Mrs. Harold Holmes of this place, who is a member of an organization at the Merritt Home in Oakland, two weeks ago, died at 82 years of age.

Home last Wednesday by Dr. A. M. Galbraith in his automobile. She is doing nicely.

Miss Lizzie and Mary Silva are sojourning at McKinley's at Lake Tahoe with San Francisco friends.

The Misses Emma and Ella Horn have returned from a most enjoyable stay at McKinley's at Lake Tahoe.

Mr. and Mrs. Carl Zimmerman have returned from their three months' tour of Europe. They report a magnificent time, but nevertheless, are happy to be back home.

The Castro Valley Whist club met at the home of Mr. and Mrs. Koll on the Lake Chabot road Thursday evening. The prize winners: Miss M. Easton, the lady's prize, and Dr. E. George, the gentleman. Those present were Mr. and Mrs. E. V. Kotter, Mr. and Mrs. Satterfield, Mr. and Mrs. C. F. Hinds, Mr. and Mrs. Dr. E. George and Mr. and Mrs. E. G. Smith.

The Tea Club met with Mrs. William Angus yesterday afternoon.

Miss Vera Gule spent the week-end with Harvard Guards.

E. Spornill, the druggist, has arrived from his vacation trip.

Mrs. E. Garrison and daughters, the Misses Ella and Alice Garrison, have gone to Lake Tahoe for a two weeks' stay.

Mrs. John Mendell and daughter have returned from Santa Cruz and are spending a few days with her parents, Mr. and Mrs. P. Willard.

Mrs. E. C. Clark and two daughters and the Misses Jeannette and Margaret Gray have returned home from a visit to Lake county. They spent most of the time on the Ulkemott place, the home of Mrs. Clark's parents.

Mrs. Jewell Madison and daughter, Miss Marie Madison, are spending a few days at Pacific Grove.

Mr. and Mrs. Henry L. Beck and son, Fred, of San Francisco, are visiting Mrs. Lakavica and mother, Mrs. Dressler, of Castro street.

GET RID OF RHEUMATISM

Rubbing with liniments, blistering the affected parts, plasters, etc., are usually helpful in relieving the pains and aches of Rheumatism, but such treatment does not get rid of the disease, because it does not reach its source. Rheumatism comes from an excess of uric acid in the blood. This acid circulating through the system acts as an irritant to the nerves, muscles and joints, and produces the inflammation and swelling, and sharp cutting pains characteristic of the trouble. Then Rheumatism becomes chronic and not only a painful but a dangerous disease. S. S. S., the greatest vegetable remedy, goes into the circulation, neutralizes and removes the uric acid, and by building up the thin, sour blood, safely and surely cures the disease. S. S. S. makes rich, nourishing blood, which quite excites nerves, eases the tension, and filters out every particle of irritating uric acid from the system. Book on Rheumatism and any medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

J. J. Foley's Design Accepted by Trustees and Building to Open Next Year.

CENTERVILLE, Aug. 16.—The session of the Contra Costa organization interesting to public.

John J. Foley, a San Francisco architect, having awarded the job by the board of trustees.

The new school building will be built along the most modern lines with due regard to heating and ventilation.

The regular meeting of the board of city trustees last evening, when the chicken ordinance came up for final passage, trustees voted to clause requiring coops to be placed at least fifty feet from any dwelling, as a number of the lots in Piedmont are but twenty-five feet wide.

After some discussion the matter was referred to the health committee.

The resolution was granted the gas, light and power company to erect poles in the Piedmont Manor.

A resolution of intention was passed authorizing the laying of cement pavements on the east and west side of Highland avenue, wherever such pavements are not already laid, from Howard avenue to Pacific avenue.

A resolution was passed ordering the marsh to remove obstructions on Highland avenue in front of the Radcliffe-Dick residence.

The resolution of intention was passed authorizing permanent pavements to be laid on Grant avenue from the boundary of the city of Oakland to the intersection of Rose avenue and the Oakland Avenue right of way, on both sides of the street.

Trustees voted to put the street in good condition.

A fire hydrant was ordered placed at the corner of Union and Paragut avenues.

The board of trustees then adjourned to meet as a board of equalization.

P. H. Morehouse presented sixteen petitions for a reduction on behalf of the Realty Syndicate and William H. Barbour of Farragut avenue filed a petition with the board.

The board of equalization adjourned until next Tuesday, when it will receive new petitions and act upon those already filed.

Success of the Fish and Game Picnic Evolves Admission Day Plans.

HAYWARD TO GIVE SECOND BARBECUE

O. AND A. TO APPLY FOR NEW FRANCHISE

MARTINEZ, Aug. 16.—The success which attended the barbecue and picnic of the Alameda County Fish and Game Protective Association held here last Sunday, has inspired the Chamber of Commerce and merchants of this place to begin preparations for a monster barbecue and picnic similar to last Sunday's, to be held on Saturday afternoon. The proposed celebration will probably be largely attended as at present no other celebrations have been planned in any other of the cities or towns in Alameda county. Without this rivalry the local merchants are enthusiastic over the prospects of the proposed celebration and declare that preparations for several thousand persons will be made.

Several committees to attend to the details of the barbecue have been selected and these are busily at work soliciting aid.

William Angus is president of the Chamber of Commerce in charge of the celebration and J. E. Welch is secretary. H. R. Robinson and H. J. Brunner are on the committee of arrangements.

MISSIONARIES TELL OF WORK IN FIELD

OAKLAND PRESBYTERIAN SOCIETY HOLDS DAY SESSION AT PLEASANTON

PIEDMONT NOTES

HAYWARD, Aug. 16.—The Epworth League of the Methodist church has completed plans for an entertainment and social to be held tonight in the league's headquarters. A program by an illustrated travel talk by Rev. I. E. Thompson on "Arizona Grand Canyon, Petrified Forest and Yellowstone Park." There will be a musical program and refreshments.

PIEDMONT NOTES

HAYWARD, Aug. 16.—Mrs. S. Baker entertained the neighborhood sewing club at her home on Raizada avenue Thursday. The afternoon was devoted to the sewing of rag rugs, to be sold for the benefit of the Orphanage Fund.

The afternoon was a great success.

CHICAGO, Aug. 10.—Wheat traders today based on both sides. Trading was light with a fair demand and rainy weather the main west moving factor. The opening was steady to 9c up, with December unchanged at 9c higher at 92c to 93c. That option spread went up to 93c to 95c on a fair demand and record of the high level.		

Corn opening was strong and well supported by purchasing by large traders. September started up to 85c up to 90c and added to its residue at the top. December moved up to 91c after opening a shade to 9c higher at 94c to 95c to 96c.

Covering by shorts, rainy weather and delay of officials made corn strong. Cash house held its supplies of September. December opened a shade to 9c higher and closed at 91c with the opening limits in the early market.

Good demand for provisions gave firmness to the entire list, January product leading. Opening sales varied from unchanged to 10c advance. October products were: Pork, \$13.27½; Lard, \$14.07½; and ribs, 10.65c.

NEW YORK, Aug. 10.—Cash pork No. 2, 77½c; No. 4, white, 78½c; No. 2 yellow, 78½c; No. 8, 76½c; No. 3 white, 78½c; No. 3 yellow, 77½c; No. 4 yellow, 78½c; No. 4 white, 78½c; No. 4 yellow, 78½c.

No. 2 rump, 77½c; No. 2 shoulder, 80c; Clover seed, \$10.15c.

Following were the closing prices:

Wednesday, September 4, 1912; December, 93c to 94c.

Thursday, September 5, 1912; December, 94c to 95c.

PROBATION DID NOT SAVE YOUTH

R. S. Bosworth Sentenced to a Term in the State Penitentiary.

R. S. Bosworth, who at the age of 27 had traveled in luxurious style in nearly every part of the world, spending a \$25,000 fortune that had been left him by his parents and who passed bad checks in Oakland where his funds gave out, later being released on probation by Superior Judge Ellsworth, is in the toils of the law again and will have to serve a two-year sentence in San Quentin.

After his release he was employed by R. W. Martland in the automobile business, but he took to going on joy rides with H. G. Schute, a former cellmate who was also on probation and became irregular in his accounts with the firm. He was re-arrested with the result that Superior Judge Brown committed him to prison. His wife is still in Cuba with a child. Bosworth left the island to come to California. He had a number of check-passing escapades in the south before arriving in Oakland. At one time he took his wife to Honolulu. The principal of his estate was soon spent and in addition a small fortune belonging to his wife.

Schute was also arrested for passing fictitious checks, but recently fled to Rochester, N. Y. A warrant has been issued for his arrest again and Sheriff Barnet has been instructed to bring back the prisoner. His probation was revoked and it returned Schute will be sentenced to a term in prison.

HEALTH COMMISSIONER BOTH BUSY AND HONORED

RICHMOND, Aug. 16.—Health Commissioner Dr. C. R. Blake has received an invitation from Chairman M. C. of the League of California Municipalities inviting him to open the session of that department at the league convention at Berkeley next month with an address on "Education in the Municipal Health Department." He will be accepted by Dr. Blake and he will tell the big convention just how Richmonde secured its excellent supply of pure milk.

Sanitary Inspector Thomas Greene, under the direction of Health Commissioner Blake, is making a thorough cleaning up of this city, as to weeds, rubbish or other unsanitary things occurring within the city limits, with warning to all persons and organizations that they must comply strictly with all sanitation ordinances.

CAZAR INSURES LIFE FOR NEARLY \$5,000,000

BERLIN, August 16.—The Berliner Tagblatt says that life of the czar of Russia is insured in an English company for nearly \$5,000,000. This insurance was taken out when he was quite a boy, and a premium of \$80,000 a year has been paid annually ever since. King Victor Emmanuel of Italy, according to this story, is insured for \$2,500,000. King Edward of England for the last two years of his life was insured for \$450,000.

MAY GET BOY'S SLAYER.

SAN JOSE, Aug. 16.—Sheriff Arthur B. Langford has traced a party of automobile drivers whom he believes fired the stray shot that killed 11-year-old George McGuinness last Saturday while the boy was playing in the yard of the home of Mrs. Emil Meyers of San Francisco. Yesterday Sheriff Langford learned that a party of autodrivers had ridden through East San Jose about five minutes before the boy was shot and had fired several bullets from a pistol into the air and rode rapidly away.

S. F. AUTOIST FINED \$10.

PETALUMA, Aug. 16.—F. J. Henderson of San Francisco was arrested by Special Officer Walter Guldner charged with exceeding the speed limit. He appeared before Judge Dillon and paid a \$10 fine. Henderson argued that it was unnecessary for him to drive his big car at a rate of speed required by the city ordinance when coming into the city limits.

THREE AUTO SPEEDERS FINED.

REDWOOD CITY, Aug. 16.—Three auto speeders were yesterday found guilty and fined by Justice of the Peace H. W. Lampkins. The offenders are residents of San Francisco. L. P. Paramount, who was operating his car at thirty-five miles an hour when arrested, was fined \$35. Al Snickels paid a fine of \$35, while James Schrader paid \$30 into the coffers.

MAN LOST LEFT WATCH.

SAN FRANCISCO, Aug. 16.—Michael O'Neill of 153 Octavia street was robbed of a gold watch by a pickpocket on a street car last night.

Low Colonist Rates Effective Next Month

The passenger department of the Southern Pacific makes an announcement of interest to all Californians, especially colonists, that tickets and relatives desirous of making their homes in the golden State.

Colonial tickets will be placed on sale at eastern points from September 1 to October 1.

The fares will be \$1.50 each for

trips from San Francisco to California.

BIG CLASS WILL ENTER COLLEGE

Registration of New Students at University of California Is Begun.

UNIVERSITY OF CALIFORNIA, Aug. 16.—With the registration of new students, graduate and undergraduate, the full semester of the university opens today. New students will continue registering tomorrow. Old students will re-register Monday and class work will be formally commenced Tuesday morning. The largest freshman class in the history of the university was presaged in the early registration today.

The Daily California, the student newspaper, made its first appearance for the term this morning. John L. Simpson is editor for the term. Richard R. Handall is managing editor. Miss Evelyn Steel, women's editor and Francis Moutoussis business manager.

The first university meeting will be held Monday morning at 11 o'clock at Harmon gymnasium. President Wheeler will deliver his annual address of welcome to the freshman class. The president spent the greater part of the summer in the East and with Regent C. S. Wheeler on the McCloud river.

The Y. M. C. A.'s opening rally for freshmen will be held this evening at Stiles Hall. Arthur Eaton is in charge of the program, assisted by Yell Leader S. L. Arnett. An information bureau for entering students has been opened at Stiles' Hall, where booklets of directions for freshmen were given out today.

The first Associated Women Students' meeting was scheduled to be held this afternoon at Hearst Hall. Miss L. Stebbins, dean of women, greeted the girls of the freshman class. Tea was served during the afternoon and a brief program given by the Treble Clef Club.

JUDGE THURMAN TO MAKE HOME HERE

Judge R. S. Thurman, who resided in Oakland many years ago, but more recently in St. Louis and Indianapolis, has returned to California to spend the remainder of his days. He is making his home for the present with his son, Edward Wirt Thurman, of Hayward.

Judge Thurman is a distant relative of the late Allen G. Thurman and a lecturer of note. He was born in the same town that Woodrow Wilson was, Staunton, Virginia, and is a great admirer of the Princeton scholar.

CIVIL SERVICE QUIZ.

The United States civil service commission announces that the examination listed below will be held in San Francisco at an early date: Deck hand, \$65 per month, September 20. Application blanks and further information relative to this examination may be obtained from the secretary, Twenty Civil Service District, room 241 Postoffice building, San Francisco.

ACCUSED SLAYER JAILED.

GLOBE, Ariz., Aug. 16.—Manuel Sanchez, wanted on a charge of murder at Altar, Sonora, Mexico, was arrested at Miami yesterday and will be held for extradition.

SAN JOAQUIN COUNTY RAPIDLY ELECTRIFIED

STOCKTON, Calif., Aug. 16.—San Joaquin county is rapidly becoming electrified. Seven hundred farmers are now being supplied with "juice" with which their homes are lighted and their farm machinery operated. Each of the farmers have installed a five-horse power motor.

A general extension of the lines and distributing facilities of a local power company enabled the farmers to secure the electricity. Further developments on the part of the company along these lines is contemplated.

D'ANNUNZIO PLANS NEW BOOK.

ROME, Aug. 16.—Gabriele d'Annunzio, the poet, novelist and dramatist, is motoring through Tournai with a view of writing a book which will have the theft of the "Mona Lisa" from the Louvre as its subject.
